

New Shamrock Cheese Factory Officially Opened Thursday Evening

J. L. Baker, Dairy Commissioner of Ontario, Guest Speaker—Conducted Tour

The official opening of the new Shamrock Cheese Factory, Frankford Road, took place on Thursday evening last with a large attendance of patrons and their friends, dairy officials and friends from the surrounding district. Chairs and benches were placed on the lawn and two parked trucks were used as a platform. Parking was provided in an adjacent field and a member of the OPP directed traffic. A public address system, erected by S. McArthur, carried the programme to all listeners and Phil Flagler of CJQB acted as master of ceremonies.

The registration of those in attendance was in charge of Mrs. Geo. Carlisle, the capable Secretary-Treasurer.

Following a brief address by Mr. Flagler, in which he outlined what had been accomplished by W. Spencer & Sons, contractors, in making the building suitable for year round operation, President Geo. Carlisle welcomed the assembly and introduced Ross Lain, cheesemaker, who was given an ovation. His assistants are Geo. Haggerty and Wayne Roe. Ribbon Cutting Ceremony

A wide satin ribbon of emerald green was stretched across the rear entrance and a special ceremony followed when Miss Helen Morrow, 1962 Dairy Princess for the County of Hastings, assisted by Graham Mowck, Reeve of Stirling; Gerald Irvine, Reeve of Sidney Township, and Chas. Long, Warden of Hastings County, snipped the ribbon and officially declared the building open.

A tour of the factory was well arranged with folk placed at various places to answer questions on the operation of the plant from the raw milk stage to the finished stilton cheese.

The following were introduced and invited to seats on the dais:

James MacMillen, Representative Federal Department of Agriculture; Miss Helen Morrow, Hastings County Dairy Princess for 1962; Jack Bain, Director of Milk Products Division for Ontario; J. L. Baker, Dairy Commissioner of Ontario; Glen Morrow, a Director of Shamrock Cheese Factory; Hector Arnold, Chairman of Ontario Cheese Producers' Marketing Board; Leo Grills, former M.P. for Hastings-South; Charles Long, Warden of Hastings County.

History of Factory
Mrs. Roy Bush gave a historical sketch of the Shamrock Factory. Space does not permit all her comments, but she said in part:

We are very pleased and happy to-night to be present at the opening of a new and remodelled cheese factory. Like an anniversary there is always joy and celebration at an important beginning, especially of progress. On such an occasion, we take time from our usual activities and rush to the cause. Why? Here we not only look at the present in anticipation of the future, but we also look back to the beginning. Progress is measured from one point to another. Let us note that not even a mile can be measured without a starting point.

So, tonight while we can justly pat ourselves on the back at the beginning of this modern factory, let us bow our heads in reverent memory to those who so long ago, made it possible to have a starting point for such as this remodelled cheese factory—the only one left in Sidney Township.

One cannot get very far in research in cheese making in this district without running into the Whitton family. The first record of a cheese factory in Canada was in Oxford County in 1864. There was one in Hastings County also that year, and in 1885 one was built at Bayside and Plum Grove (Wellman's). There was an old factory at Ross Holland's (9th Concession) but the date is unknown as yet.

The first record we have of our own first cheese factory was that it was going strong in 1875. So this too could have been built in the 1860's. Prior to this date, Mr. Jas. Whitton Sr. and his wife who came from Yorkshire, England, finally settled near our boundary in Seymour, Northumberland. Facing the problem of the times, Mrs. Whitton persuaded her husband to allow her to use the milk to try to make cheese like she had seen it done in England as a child.

Bloomfield Here Friday Night

Bloomfield and Stirling intermediates will play the second game of the semi-finals in the Trent Valley Softball League here tomorrow (Friday) night. Stirling dropped the first game to this hard hitting aggregation last night in Picton but the boys will be out to redeem themselves in the second game.

Ball fans should make it a point to turn out Friday night and give the locals their support.

Closing Night At Playground

Closing night ceremonies will be held at the Henry St. Playground tomorrow (Friday) night, commencing at 7 o'clock. The theme this year is "Space Night." Everyone is invited to attend.

Juvenile "C" Play-offs Open August 10th

Word has been received by local management that the O.A.S.A. Juvenile "C" playdowns will get under way August 10th, with Stirling meeting Northport on the latter's home diamond in the opening game of a two-out-of-three series. The second game will be played in Stirling August 13th. There are six teams in the Zone competing, Deseronto, Lakefield, Murvale, Norwood, Northport and Stirling.

Glen Ross Pee Wees Champions of District League

Glen Ross Pee Wees defeated Spring Brook in the fourth game of the finals on Saturday night, July 19th in Spring Brook by a score of 14 to 12. By their victory they captured the League Championship and the Major S. Fraser trophy for the third year in succession. They are now the permanent holders of the trophy.

The league comprised four teams, Stirling Legion, Stirling Rotary, Glen Ross and Spring Brook.

Members of the winning team are: Larry Jeffs, p; Willie Wilhelm, c; Don Potts, 1b; Peter Utman, 2b; Glen Spencer, 3b; Les Pyear, ss; outfielders, Gordon Spencer, Keith McConnell, Alvin Harry and Barry Wilson.

Ralph Utman was the manager and Doug Pyear the coach.

On Saturday evening the parents and families of the players got together at Bird's Beach, Oak Lake, and enjoyed a barbecue of wieners, hamburgers and soft drinks; also a swim in the lake.

On a small scale she placed a vat in the basement of their 3-storey rough cast house. I believe the walls are still standing. (I would like to call the attention of the Cheese Producers' Association to ask the Government for a plaque to commemorate the origin of such an important industry).

She used their own milk and the milk of the next neighbour, a Mr. Hume—grandfather of the Ayrshire breeder we all know so well. Mrs. Whitton made such good cheese that she could not supply the demand. Mrs. Whitton died August 5th, 1868, so she no doubt was the first cheesemaker we have record of. Mrs. Whitton taught her son James the trade.

The Whitton family were not only aggressive and intellectual persons in the cheese business, but they were born teachers, and had visions for the future. The Whitton achievement is a story in itself. It is sufficient here to say that Mrs. Thos. McCaughen, of Stirling, is a daughter of Jas. Whitton and is still living. She would have loved to be with us tonight. She has had much experience in all branches and book work of the cheese factory and creamery. Mr. Whitton her father and Mr. Thos. McCaughen her husband together gave nearly 75 years of service in the cheese industry (until 1934).

Mr. Jas. Whitton and Mr. Morden (continued on page two)

Community Honours Bride and Groom

Some seventy-five friends and neighbours gathered at the home of Mr. and Mrs. Kenneth Mumby last night to honour their son, George, and his bride following their recent marriage.

Volney Richardson acted as master of ceremonies for the programme which opened with a round of community singing led by Grant Richardson. Readings were given by Mrs. John Ryan and Miss Jane Clements. A vocal duet was rendered by Mr. and Mrs. Grant Richardson and Mrs. Ronald Johnston contributed a piano solo.

An appropriate address was read by Donald Drewry and the young couple were presented with a space sayer on behalf of the friends and neighbours.

Carol and George expressed appreciation to the donors after which refreshments were served and a social hour enjoyed.

Rylstone Winners of Bantam League

The regular schedule of the District Bantam Softball League ended Tuesday night with Minto defeating Glen Ross by a score of 13 to 1 and Spring Brook downing Stirling 17 to 9.

By virtue of their victory Spring Brook captured the last play-off spot in the final series which will open this week.

Rylstone finished in first place with a record of 8 wins and no defeats; Minto in second, 5 wins and 3 defeats; Glen Ross, three wins and five defeats; Spring Brook and Stirling had 2 wins and six defeats.

Play-Off
Friday Night
Minto and Spring Brook will meet in one play-off series with the first game at Spring Brook tomorrow (Friday) night at 7.15 o'clock.

Rylstone and Glen Ross will meet in the other semi-final series.

Annual Rotary Fair and Street Dance Proved Most Successful

Large Crowd Gives Splendid Patronage For Various Games—Draws Were Held

The Rotary Fair and Street Dance held on Tuesday night, July 30th, proved quite successful and President Les Rawlings and his fellow Rotarians are delighted with the generous patronage accorded them.

The street was made ready in the late afternoon and conditions were ideal. The net proceeds amounted to several hundred dollars, which will be used for the Club's Crippled Children's work and other benevolent activities.

A bingo game did a thriving business, while a shooting gallery, fish pond and refreshment booths were well patronized. Several Rotary Annas assisted the Rotarians in the various booths. Music for dancing, round and square, was provided by "uncle" Jimmie Mitts and his orchestra.

Merry-Go-Round
A merry-go-round and a "ring the bell" contest, supplied through the courtesy of Harvey Couch, provided much amusement for the kiddies.

Only Nine Days Remains In P.S.I. Sponsored Com. Health Plan

The P.S.I. sponsored Hastings and Prince Edward Community Health Plan will close, Saturday, August 10th at 12 noon. No extension of the deadline date will be possible and according to P.S.I. officials, no application will be accepted following the closing date.

Mr. Douglas Brown, spokesman for the plan has advised the News-Argus that the enrolment has been one of the most successful campaigns carried out by P.S.I. Mr. Brown has been extremely pleased with the response from the residents of Hastings and Prince Edward. The residents have shown a great deal of interest to this campaign and they have certainly given it their support.

With only nine days left for permanent residents to enrol in this comprehensive coverage, Mr. Brown sincerely hopes that every resident wishing information on the coverage, does not hesitate but contacts one of the information centres for complete details on the plan or to see a representative. The canvass that has been carried out since the opening day,

Monday, July 17th, 1963, has now all but been completed and any resident who has not been contacted is urged to contact one of the offices in either Belleville, Trenton or Picton and arrangements will be made to give them the information they require. These offices will remain open Monday through Friday until 5 and on Saturday, August 10th, until 12 noon to allow for last minute applications.

Sportmen's Day Planned In Aid of Park Conservation

A Sportsmen's Day that will long be remembered is the word from the hard-working executive of the Campbellford Sportsmen's Club.

The club last year held its first Sportsmen's Day on the Civic Holiday, and the result was a resounding success. Not content to rest on their laurels the Club has provided for many additional attractions for the forthcoming Civic Holiday, Monday, August 5th. Boat races involving many classes of craft and horsepower, swimming events and numerous ground events will bolster the big programme. There will be pony rides, miniature golf, a vacation booth operated by The Outdoorsman magazine, entertaining games and a gala

dance party in the evening. Site for the Sportsmen's Day will again be the spacious grounds of the Riviera Inn, Campbellford. Riviera host Kees Vandegraaff will serve "northern" style fried chicken from a huge outdoor barbecue.

Of interest to anglers will be the demonstrations by North Jory, World Accuracy Casting Champion. The Toronto Anglers and Hunters Association member has appeared at 13 Sportsmen's shows since winning his World title in Chicago earlier this year.

As a special treat for the kiddies, "Smokey the Bear" will be present. Proceeds from the Campbellford Sportsmen's Day will help further development of the Ferris Memorial Park, a scenic property on the edge of the town of Campbellford that is being developed by the Campbellford Sportsmen's Club with the co-operation from the Department of Lands and Forests.

Shamrock Factory Officially Opened

(Continued from Page One)

Bird built our second factory on the Shea farm.

The first factory we have record of was a private factory owned by Jas. Bird, who was a brother of Mrs. Frank Irvin's mother. He lived over

on the Campbell place east of 14 Highway. This factory was situated on the Carr lot where Philip Conley now lives. Miss Sarah Downs was cheesemaker and lived in the Upper storey. This factory burned between 1875 and 1885 or 6. Miss Downs lost all her possessions but saved the books. (Does anyone know where they are?) I believe the factory burned in early morning and there was no way to stop the milk coming. Mrs. Walter Barker, now of Stirling, remembers standing in a window of her home to watch the fire as a child.

The second factory was built on what we knew then as the Shea farm. This land was first settled by Joseph Rosebush and his father before 1800 (now Bob Philip's farm). It was in the flat north west of the bridge. This no doubt, was built shortly after the other burned. Mr. J. B. Belshaw remembers it there in 1887. It was red and was built on blocks because of poor soil. The whey vat was set in the ground and a wooden pump used to pump the whey. Later a raised platform and rubber pipes were used.

The carpenter was Sangster Golding and Miss Downs again was the cheesemaker. Mr. Golding was the wooden pump maker of River Valley in the Wooden Pump Shop on Stanley Irvin's farm.

In 1891 a Stock Company was formed which bought the factory for \$1000

— that's 72 years ago. I believe a Stock Company was originated at Wellman's at the same time.

On the cover of the first book is the following: "I certify that the within instrument is duly entered and Registered in the Registry office for the County of Hastings in Book A for Joint Stock Co. at 11.55 o'clock a.m. the 28th day of December A.D., 1891. No. 182. (Signed A. Vandervoort, Deputy Registrar).

The first trustees were Oakley Vandervoort, Samuel Patterson, Francis Scott, John Donohoe and M. Shea and were appointed to manage the affairs. First Chairman of Annual Meeting was John McGee; 1st President, Oakley Vandervoort; first Auditor, Thomas Smith and Wm. F. Hanna.

In 1899 (8 years later) the factory was moved across the road to the present site with one horse by a negro for \$30.00.

In 1940 it was razed and the former building erected for which there was a fine and well arranged opening, chaired by Mr. B. Belshaw in August 12th, 1940. The carpenter was Hector Eggleton as instructor with most of the work being done by the patrons taking turns. Mr. Belshaw was the foreman.

Cost of the factory building in 1940:
Cost of material \$1458.93
Cost of labour 808.87
Cost of insulation 597.00
Refrigeration 520.06

TOTAL COST \$3384.86
Expect from stock 2216.00
Expect Govt. subsidy 558.59
Sale of old material 15.00

BALANCE \$ 595.36 (without cost of garage)

It is of interest that we have only had four Presidents — Oakley Vandervoort, John Sager, Tom Donohoe and George Carlisle. These have given long years of service. The late John Sager gave 40 years plus other offices and Mrs. Sager 30 years.

Some of the cheesemakers names noted were: J. F. Ketcheson, Miss Carrie Galway (later Mrs. Cossan), George McGee, Frank Sager, C. F. Linn, Walter Barker, Mr. Nix, Hiram Rodgers, Mr. L. McAvoy, Tom Heath, Ivan Sine, Bert and Glenn Anderson, Mr. Gray, Don Wynn, Bill Gibson and now Ross Laine.

Tom Donohoe (and the Donohoe family) gave long years of service and Mr. Carlisle, President since 1948, and Mrs. Carlisle, long hours as Auditor and now as Secretary.

I would like to specially mention the long and helpful years of Mr. George Pollard who gave of his personality as well as his time. He has a kind way of inspiring others to do a better job as cheesemakers.

Dairy Commissioner
Guest Speaker

J. L. Baker, Dairy Commissioner of Ontario, gave an illuminating address on "The Cheese Industry"

He complimented Hastings County and Northumberland County in keeping this industry to themselves with no outside interests competing. He outlined cheddar cheese and explained the different varieties that are manufactured.

Mr. Baker also gave a vivid description of his recent trip overseas when he attended the International Dairy Council at Copenhagen, Denmark, and a special visit to Holland.

He gave many interesting items along the line of protein testing of milk, the introduction of colour to oleomargarine, and up-to-date items in connection with the raw milk industry. In closing he said, "One of the encouraging signs of the times is

increased butter consumption."

Mr. Baker was introduced by Jack Bain, Director of Milk Products Division for Ontario, who also brought greetings on this occasion.

Glen Morrow voiced appreciation and made the presentation to Mr. Baker of a ten pound cheddar cheese.

Miss Helen Morrow, Hastings County Dairy Princess for 1962, dressed in her colourful red letter sash, read the list of girls eligible for the 1963 competition. Miss Rosemary Bush, one of the three girls, was in the audience and took a bow.

George Carlisle introduced other dignitaries in the audience who are members of the Dairy Field Staff as follows:

J. F. Robinson, Chief Instructor in Cheesemaking for Central and Eastern Ontario; E. W. Henderson, Area Fieldman for Hastings County; M. T. Napper, Area Fieldman for Northumberland and Peterborough; G. E. Clarke, Area Fieldman for Prince Edward and Lennox and Addington; W. P. Moore, Dairy Branch Fieldman for Northumberland and Hastings; Thos. Heath, Dairy Branch Fieldman; Geo. Pollard and J. M. Wilkinson, both retired Dairy Branch Fieldmen.

Former cheesemakers in attendance were then introduced as follows: Thos. Heath, Ivan Sine and James Gray. The contractor, Wilfred Spencer, and William Harris, DeLaval representative, were also introduced.

Presentation
Mr. Carlisle made the presentation to Phil Flagler of a ten pound cheddar cheese and he graciously replied.

Entertainment
Messrs Jack Bush, Harry Brown, Ralph Johnson and Grant Richardson, with their piano accordion accompanist, Mrs. Harry Brown, contributed two quartette selections and led in a sing-song.

The Directors of Shamrock Cheese Factory were formally introduced along with President Geo. Carlisle. They were: Everett Lake, Glen Morrow, Harry Vandervoort, J. R. Donohoe, Harry Heasman and Roy Tucker.

Refreshments
Several members of River Valley Women's Institute, under the direction of their President, Mrs. Vernon Harry and her committee, served the guests doughnuts, coffee and freshie in cafeteria style and Shamrock Factory provided generous slices of cheddar cheese.

Descendants of Nehemiah Hubble 14th Annual Reunion

Over seventy descendants of the late Nehemiah Hubble and his wife Lucinda Welton, of "Hubble Hill" Mount Pleasant, Rawdon Township, gathered on Sunday, July 28th at Little Lake Beach, near Brighton, for their annual get-together.

Guests were in attendance from Montreal, Peterborough, Campbellford, Havelock, Marmora, Foxboro, Crookston, Ivanhoe, Hastings, Belleville, Thomasburg, Frankford, Carmel, Mount Pleasant and Stockdale.

President Burton Hubble presided over the business meeting and welcomed five of the clan who were attending their first picnic, namely Edith Hubble Gerow and Clara Hubble Cosgrave, of Havelock; Helen Spencer Tucker, Mark and Andy, of Peterborough.

Mrs. Russell Pyear presented the prizes as follows:

Youngest in Attendance — Isabel Hubble, five and a half months old daughter of Mr. and Mrs. Burton Hubble, Belleville R.R. 5.

Oldest in Attendance — Mrs. Janet Utman, Stirling, 73 years in June.

Youngest Married Couple — Mr. and Mrs. Glen Hubel, Stirling R.R. 3; married ten years.

Longest Married Couple — Mr. and Mrs. Ernest Hubble, Foxboro; married 55 years.

Largest Family — Mr. and Mrs. Burton Hubble and six children, of Belleville R.R. 5.

Travelled Farthest — Mr. and Mrs. Selbourne Theod and daughter, Ruth, of Montreal, Que.

The 1964 picnic will be held the fourth Sunday in July at the same beach. The members are to bring suggestions for a reunion elsewhere in 1965.

Officers Re-Elected

The officers were all re-elected as follows:

President — Burton Hubble, Belleville R.R. 5.

Vice-President — Mrs. Percy MacMullen, Stirling R.R. 3.

Secretary-Treasurer — Mrs. Russell Pyear, Belleville.

Corresponding Secretary — Mrs. Arthur Pyear, Frankford R.R. 3.

Sport Conveners — John Schwass and Glenn Hubel.

Historian — Mrs. Percy MacMullen.

Extra assistants were appointed as follows: Mrs. Ross Hubble, Mrs. Cecil Hubble, Mrs. Arthur Pyear, Mrs. Don Terry, Messrs. Clinton Hubble and Elton Hubble. The assistants were asked to send in a complete report of their family tree to Mrs. MacMullen in order that a correct history may be prepared for next year.

Mrs. Percy MacMullen, who has been the genealogist of the clan, spoke briefly. She paid tribute to her late colleague, Mrs. Russell Hubel (Keitha) who had prepared a great deal of the material dealing with the United Empire Loyalists of this area when Nehemiah and his wife first came to Hubble Hill.

The speaker told how Nehemiah came to Hubble Hill in 1783 and built a shack in the wilderness. The next year he travelled to the United States and brought his wife, the former Lucinda Welton and their children to Canada. There was a family of nine children and two died in early life and one journeyed to the United States and married there. Records of the other six have been compiled.

The Hubble history centres around Nehemiah the second known as "Big Myer, Elijah, Allen, James, Rueben, John and Peter. These six children of the pioneer settled around the Stirling area and there were several of the sixth, seventh and eighth generations in attendance at the reunion on Sunday.

The first reunion was held at Presqu'ille in 1950 and the first president was the late Lorne Hubble, of Frankford, and the first secretary, Mrs. Wallace Orr, of Hastings.

The group enjoyed the sandy beach in the afternoon or sat in the shade and reminisced. Each child was given a special treat at the confectionery booth after they finished their sojourn in the water.

Thompson -- Tinney Wedding Solemnized

On July 20th, at 2 o'clock, in Zion United Church, Norma Jean, daughter of Mr. and Mrs. Albert Tinney, of Petherick's Corners, became the bride of Thomas John Thompson, son of Mr. and Mrs. Clayton Thompson, Hord's Station.

The bride, given in marriage by her father, wore a floor-length gown of silk organza with long sleeves and bodice of chantilly lace. Her oval-shaped, finger tip veil was caught to a coronet of pearls and sequins. The bride's bouquet of pink roses and white carnations was accented with trailing ivy.

Reverend Gordon Whitehorse officiated at the double-ring ceremony. The wedding music was played by Mrs. Walter Brunton. Mr. Jack Bush, uncle of the groom, sang "The Lord's My Shepherd" before the ceremony and "O Perfect Love" during the signing of the register.

Miss Fern Tinney, sister of the bride, was maid of honour and wore blue silk organza over taffeta. A large cabbage rose of the same material adorned the bell-shaped skirt. She carried a nosegay of pink carnations framed with white lace.

The bridesmaids, Miss Lois Tinney, sister of the bride, and Miss Barbara Watson, friend of the bride, were similarly attired and carried nosegays of white carnations and framed with pink lace.

The bride's niece, Miss Debra Tinney as flower girl, wore a white silk organza dress with a blue sash coming to a large bow at the back. She carried a nosegay of pink carnations framed with white lace. All attendants wore headresses of large blue organza cabbage roses and white accessories.

Mr. Richard Thompson, brother of the groom, was groomsman. Mr. Robert Tinney, brother of the bride, and Mr. Hugh Hord, cousin of the groom, were ushers.

The reception was held in the Orange Hall at Petherick's Corners. The bride's mother received, wearing a blue crepe dress with lace bodice and white accessories. The groom's mother assisted wearing a mint green sheath with matching accessories.

For going away, the bride chose a white deacon dress with rose and white accessories and a corsage of pink roses.

The bride and groom will take up residence at Hord's Station after returning from a trip to the West Coast.

Previous to the wedding, the bride was honoured at showers at the homes of Miss Mary Breen, Mrs. Carl Johnston and Miss Barbara Watson. —Campbellford Herald.

Trumble - Meiklejohn Wedding, Marmora

A colourful wedding took place in St. Andrew's United Church, Marmora on Saturday, July 20th when Sandra Carolyn, daughter of Mr. and Mrs. G. J. Meiklejohn became the bride of Constable Douglas Carl Trumble, R.C.M.P., Winnipeg, Man., son of Mrs. L. Trumble and the late Mr. Trumble, of Marmora.

The wedding was performed by Rev. G. A. Meiklejohn, of Copetown, uncle of the bride, and Rev. Maurice McLeod, minister of St. Andrew's United Church.

Mrs. Maurice McLeod played the wedding music and Miss Anne Doocey, of Picton, sang "Wedding Prayer" before the ceremony and "Nuptial Benediction" during the signing of the register.

The church was beautifully decorated in white shasta daisies, white phlox and white delphinium.

The bride's attendants were her sister, Mrs. E. Wise, as matron of honour, and Miss Linda Meiklejohn, also a sister of the bride, and Mrs. Keith Lathran as bridesmaids. Her flower girl was Miss Brenda Trumble, of Stirling, niece of the groom and the ring bearer was Brent Sanderson, nephew of the bride.

Mr. Claude Trumble, Stirling, was his brother's groomsman and the ushers were two members of the R.C.M.P., Constable Ron Daulton, of Peterborough, and Constable Gerald Shebib, Toronto.

The bride's gown was fashioned of French peau de soie in full length bell design with elbow length sleeves, picture neckline, bow trimming and having a full length train. Her head-dress was a crystal tiara with fingertip veil of illusion tulle. She wore short gloves. Her bouquet consisted of white gardenias with yellow sweet-heart roses and trailing Stephanotis.

The bridesmaids wore street length dresses fashioned in bell design of white silk organza over taffeta with bow trim and carried shasta daisies. Their headresses were wedding ring crowns of silk organza and caught by a short back veil.

The flower girl wore silk organza

fashioned in a petal skirt and a daisy headpiece and carried a basket of brown-eyed Susans. The ring bearer carried the rings on a tiny white velvet pillow.

The bride's mother wore Jonquilla yellow silk shantung with matching hat and a corsage of yellow roses while the groom's mother wore white and navy blue crepe dress with white veiled hat and a corsage of red roses.

The reception was held in the Christian Education Building of St. Andrew's United Church where the ladies of the U.C.W. served.

The guests and friends of the bride

and groom were entertained at Marble Point Lodge in the evening.

The happy couple left for a honeymoon in the Laurentians, the bride wearing a yellow linen sheath with black patent accessories. On their return they will take up residence in Winnipeg where the groom is a member of the R.C.M.P. division there.

Those entertaining in the bride's honour were Mrs. Hendon, of Lakefield; staff of King Edward School; Mrs. E. Murphy, Mrs. Harry Jenkins, Mrs. D. P. Maret, Mrs. Rodney Mawer and Mrs. Wayne Grant, all of Marmora.

THE BIBLE TODAY

"The number of people of the present generation in South and East Asia (mainland China excluded) without Scriptures is about 845 millions," said Dr. S. P. Raju, India, addressing the All Asia Bible Societies' Conference, Manila.

Eleven Asian countries were represented at the meeting which were chaired by the Archbishop of York, president of the United Bible Societies. Visitors from Australia, Europe, Latin and North America also attended.

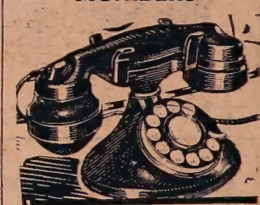

Complete Asian support was given to the world-wide campaign to "step-up" Scripture circulation. The conference also recommended planned studies of the Bible situation in each country in order to prepare long term policies and strategies. The need for special editions of the Scriptures for evangelistic work was recognized and enjoined upon those Bible Societies which engaged in Scripture production. The main conclusion was that co-operation of the church and the Bible Societies was not a matter of theory but a vital necessity for the growth of the church in Asia and elsewhere.

Rev. Chan Y. Chol, Bible Society Secretary for Thailand, and a former Korean Missionary in that country, spoke enthusiastically about recent demonstrations of church co-operation in his own agency. This speaker stressed the function of the Bible Societies in supplying the Scriptures. It was up to the Bible Societies to find ways and means for the churches to co-operate to the maximum in order to secure the widest possible circulation of God's Word in Asia.

The Food Basket

Canada's largest food service
CANADA'S LARGEST FOOD SERVICE

SANDWICHES GOOD WITH SEASONED BUTTERS

It's the month for sandwiches — the time of year when the lunch box gives way to the picnic basket and sandwich-style meals take over on

porch or patio. Every year sandwiches take on more importance as an ideal meal-in-the-hand food to keep pace with the needs of busy people. They are no longer just "snack foods" but may be substantially filled with

a variety of foods such as meats, chicken, eggs, fruits or vegetables, butter and cheese.

Butter, next to bread, is the basic ingredient in sandwiches. It adds rich flavour and food value as well as joining the bread to the filling. The home economists of the Consumer Section, Canada Department of Agriculture have been experimenting with seasonings for butter and have been pleasantly surprised at the variety of flavour blends that can be made. They suggest that you make up several little pots of seasoned butters ahead of time and store them, covered, in the refrigerator so that the flavours will blend. Then for a quick snack or a picnic supper on the patio you can put out the seasoned butters and let guests make their own sandwiches. You will need only slices of meat, cheese, tomatoes or cucumbers — no fillings need be prepared. Butter carries the flavour that goes with the particular food e.g. herb butter goes well with sliced tomatoes, curry butter with sliced meat or chicken.

Seasoned butters are tasty and handy to have on hand for either family-size or dainty tea sandwiches. They're good, too, on open face sandwiches and canapés. Spread them on hot rolls or thinly sliced bread strips and serve them with salads.

Here are some of the "butters" that rated high with the Consumer Section home economists. You'll enjoy trying them and perhaps you'll develop more flavour combinations yourself.

30 Years As Dysart Clerk, G. H. Windsor Died In Hospital

In the early twilight of Thursday evening, July 11th, Gilbert H. Windsor, one of this area's outstanding citizens, quietly passed away. We were all aware perhaps that the deceased was carrying great responsibilities for a man of his age and that he suffered a heart attack which would compel him to take a rest from his duties for a period of at least six weeks. Very few of us were prepared for the shock caused by his sudden demise, however the shock that we received could not be compared to the one suffered by his devoted wife who had been talking to him a few short minutes previous to his passing.

We can think of no person who has made such a contribution to this area as Mr. Windsor. He came here as a teacher in 1925 and since that time the list of committees he had served on and the offices that he held would indeed be a lengthy one.

The late G. H. Windsor entered into municipal service at a time when things were anything but good. The depression was at its height, the municipal cupboard was bare, and many citizens were without work or sufficient means to support themselves. He took a great interest in municipal affairs and the fine financial standing of our Dysart Municipal Telephone System and the Municipality of Dysart et al can in no small measure be attributed to the hard work and business acumen of Mr. Windsor.

Whenever the opportunity presented itself Mr. Windsor took the opportunity to visit as many places in this large municipality as possible and there are very few lakes in the united townships that he had not paddled a canoe on. In this manner he acquired much knowledge concerning roads, culverts, bridges, lakes and their shorelines. This information proved very valuable when the many cot-

tage developments in this area got underway.

Though Mr. Windsor was called upon to assume more responsibility as the municipality continued to develop, he didn't neglect the spiritual side of life and was a tower of strength in the Haliburton United Church of which at the time of his death he was treasurer and an elder.

At 4 p.m. on Sunday, July 14th citizens from every walk of life filled the United Church to pay their last respects to the deceased. Rev. Geo. Petrie paid high tribute to Mr. Windsor, citing that municipal affairs had become part of his life, also the great service he had rendered to the church. The minister told of visiting the deceased in the hospital and that Mr. Windsor had stated his intention of carrying on as church treasurer as he said "it will give me something to do." The minister said that the type of life the deceased lived was a symbol of the Christian life.

Mr. Windsor was also a highly valued member of North Entrance Lodge, A.F. & A.M. and his absence in Masonic circles will be keenly felt.

Interment was made at Stirling, Ont., at 2 p.m. on Monday, July 15th. —Haliburton County Echo.

Gilbert Windsor was born at Oak Lake and when 6 years old moved to a farm on the Town Line. He received his education at Glen Ross School and attended Stirling High School for five years. He taught school in various public schools and in 1925 moved to Haliburton to take charge of the school there.

In 1934 he was made Clerk-Treasurer of Dysart Municipality consisting of nine townships.

Fraternally he was a 32nd degree Mason, a member of North Entrance Lodge, A.F. & A.M., Haliburton; Peterborough Sovereign Chapter of Rose Croix; Peterborough Lodge of Perfection, and the Moore Consistory, Hamilton.

OF MANY THINGS

(By Ambrose Hills)

THAT SMUG LOOK!

A friend with a big powerful car was driving me home from the lake because my own bus wasn't functioning. It was a crowded highway, so we followed another car that set a fair pace and simply relaxed to enjoy the ride and the radio that was playing gold old-fashioned music, nice to drive to. Suddenly, a young lad in a 1966 green Chev with fringes around the top and a dangling doll hanging from the rear-view mirror whizzed by us, cutting in just in time to avoid a head-on collision. We sighed when he made it.

Next to cut in was no teenage lad; he must have been in his late fifties. But he had the same look on his face. A couple of other drivers, doing the same stupid things, added hazard to the drive that afternoon, and they, too, had that same look — a nauseating smugness.

What amazed us was that the car we were in could have whizzed past any of them. No cause for pride on the part of the driver, for we are all agile and strong enough to push an accelerator to the floor. Any dunce can do that. So why the smug look?

I have been trying to figure it out. Spending a week-end in a country town recently, I watched the midnight tag-game that went on, with cars splattering gravel at every corner. It was such a display of ignorance I was appalled. I asked a native about it and he said, "It goes on every Saturday night. And you ought to see the looks on the faces of the idiots who indulge in it — a sort of blank smugness!"

Completely baffled by this behaviour, I asked a psychiatrist friend of mine if he could explain it. "It's like electricity," he said, "in that we don't know exactly what it is, but we can understand how it works. It is a sign of a complete lack of security — the boy or man who indulges in it is trying to bolster an ego. He is conscious of some lack of manhood in his makeup, and is attempting to prove that he is a bold fellow. The young fellow who drives carefully is usually the real man — he doesn't

have to prove anything."

So next time you see cars whipping around small-town streets or busy highways, don't think you are seeing daredevils at large. What you are seeing, instead, are cowards or very little men who are trying to prove themselves that they are brave and bold. Pity them — and turn in their license numbers. You'll be doing them a favour.

WEED OF THE WEEK

POISON IVY

How do you get rid of the Poison Ivy? Well a sure way is to stay away from this weed — or better yet destroy it. Since poison ivy is present in the most popular vacation land areas of Ontario it is wise that you know what it looks like and how to control it.

Poison ivy may carpet the ground as dwarfed, shrubby plants a few inches high, or it may become vine-like, climbing up trees, shrubs and posts. When you're looking for poison ivy, remember that it always has three leaflets per leaf. Another way to identify it is by looking for the flowers or fruit. Shortly after the leaves have formed in spring, clusters of small erect, greenish flowers develop where the leaves join the stem. During the summer these flowers develop fruits. When the leaves have dropped in the fall, the plant can be identified by the clusters of grayish to white, waxy-looking berries. Some fruits vary from the typical and may be quite hairy.

Chemical weed killers have made it easier to control Poison Ivy say Soils and Crop Specialists of the Ontario Department of Agriculture. Not only is there less danger of getting infected with the poison, but more permanent control is usually obtained. Amitrol (Amino-Triazole) is best for a one application treatment. Silvex is also highly effective on poison ivy. Brushkillers are excellent but may require a second clean-up application.

These chemicals can be applied any time up to late September. Follow directions on the label.

For more complete and detailed information ask your Agricultural Representative for the illustrated Ontario Department of Agriculture bulletin on "Poison Ivy." You can also obtain a copy by writing to Information Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto 2, Ontario.

LEGION NOTES

This is the second of a three-part series concerning the views of the Legion on a National Flag for Canada. In this segment, we will list some of the major reasons why the Legion favours the Canadian Red Ensign as our National Flag.

To most Canadians, the Red Ensign is already our National Flag. Any new design would only result in further disunity, not only in Parliament, but throughout our entire nation.

The Red Ensign is our national flag by right of history, tradition and long usage. When Canada came into being as a nation in 1867, the Red Ensign was already in use in Upper and Lower Canada as well as in the Maritimes.

In 1870, Queen Victoria recognized the Red Ensign as Canada's own flag when she approved the Fenian Raid medal which carried a likeness of the Ensign on one side.

In World War I, Canada's fallen soldiers were buried in France with the Canadian Red Ensign usually covering the coffin, although the Union Jack was also used.

During the Second World War, our war dead were lowered to their graves in Italy, Normandy, Belgium, Holland, Germany, as well as many

other faraway places, under the Canadian Red Ensign. It also flew above the headquarters of the Canadian Army, the Corps Divisions, and Brigades. It was also used during the Korean War.

Not only custom and long-usage over almost 100 years has made the Red Ensign Canada's flag. On July 28th, 1932, an Order-In-Council authorized its use and established its proportions. Again, in 1932, another Order-In-Council authorized the Canadian coats-of-arms to be placed on the flag.

In 1934, Order-In-Council No. 134 authorized the Ensign to be flown from all Canadian Government buildings in foreign countries.

Finally, on September 5th, 1945, Order-In-Council No. 5388, stated in part, "The Canadian Red Ensign may be flown from buildings owned or occupied by the Federal Government within or without Canada. His Excellency the Governor-General is further pleased to declare that it shall be appropriate to fly the Canadian Red Ensign within or without Canada whenever place or occasion may make it desirable to fly a distinctive Canadian flag."

The foregoing should show beyond any doubt, that the Canadian Red Ensign is Canada's own distinctive national flag. It is official in every respect but one — it has not been formally adopted by Parliament itself, even though it has flown above our House of Commons for 18 years.

Intermediates Defeat Frankford To Finish In Play-off Spot

Stirling Intermediates ensured themselves a spot in the Trent Valley League play-offs on Monday night when they defeated Frankford by a score of 7 to 5. The game, which was played at the Henry Street playground, was witnessed by a fair crowd of spectators. Those who stayed away missed plenty of excitement and a thrilling game. McMaster was on the mound for the winners and Lott looked after the pitching duties for Frankford. Both pitched good ball giving up five hits each.

Andy Faulkner was the hero of the game so far as Stirling was concerned coming up with a grand slam homer in the 6th to give the locals their margin of victory.

Stirling opened the scoring in the second inning with McMaster getting a triple when the visiting left fielder fell in going after his fly ball. Bell walked and Osmond drove McMaster home with a sharp rap to the second baseman who juggled it. The visitors tied the score in the third on a homer by Gee. Frankford took the lead with a three-run burst in the 4th on a walk 2 hits and an error. They added another in the top of the 5th on a homer by G. Thompson, to take a 5-3 lead. Stirling came back with four runs in the bottom of the same inning on two throwing errors, a single and Faulkner's homer. This completed the scoring.

Entered Into Rest

MRS. MARTIN MILLER

Mrs. Martin Miller, R.R. 4, Stirling, died in Belleville General Hospital on Saturday, July 27th, 1963.

The late Mrs. Miller was the former Martha Ellen Hanna, daughter of the late Mr. and Mrs. Wm. Hanna, of Eldorado, Ont., and was in her 92nd year. Prior to coming to this district thirteen years ago, she had resided at Demorestville for 7 years, and previously at Hartsmere.

She is survived by her husband, a daughter, Mrs. Keitha Aide, with whom she resided; one son, Russell Miller, five grandchildren and six great grandchildren.

The funeral service was held from the Duffin Funeral Home, Stirling, to Grace Chapel on Monday for service at one o'clock. Mr. Simon Brownson, of Bancroft, officiated.

Palbearers were Messrs. Rex Rollins, Royce Hanna, Wm. Cairns, Byron Aide, Donald Aide and Ismael Aide. Interment at Long Lake Cemetery, Hartsmere.

Summer Safety For Children

School doors are closed for the summer months, and while many children will spend the holidays at the cottage or camp, many more will turn streets and roads into playgrounds.

While teachers and children enjoy their holiday, "Elmer" the Safety Elephant will still be hard at work. For four weeks beginning this week, the News-Argus will publish a safety contest for children of elementary school age.

This contest, while reminding children of their safety rules, is also fun and easy to enter. Each week the News-Argus will publish a drawing containing seven errors. Children must colour the picture and list the errors, for a chance at the grand prize, a new bicycle.

Two CCM Imperial Mark II bicycles will be given away each week as first prizes, and 25 second prizes of bicycle accessory kits, containing lock, handle grips, bell, mudflap and streamers.

In Ontario last year, 106 children were killed in traffic, and 3,373 injured, some maimed for life. This is a tragic record of death and suffering, which perhaps "Elmer's" contest will help to reduce this summer.

At the same time, drivers are urged to be especially alert for children during the school holidays.

Intermediates Drop Second Game To Bloomfield By 9 to 5

The game was played on the Henry Street diamond before a good crowd of fans. The winners opened the scoring in the top of the second inning when M. Stacey blasted one of Barrons' offerings clear to the bridge for a home run. They added four in the third on two errors, a single and a homer by Ostrander. They went down in order in the 4th but broke out for three unearned runs in the 5th. The first two to face Barrons got on through errors, C. Stacey singled and Ostrander hit a towering fly fall to right field which was misjudged and dropped for a home run. They got their final tally in the 6th on a double by Demille and a single by K. Stacey.

Stirling Hort. Society Bus Trip To Niagara

(by Luella Bronson)

On Monday of last week at 6:00 a.m. 75 passengers in two buses left for Niagara Falls under the supervision of the Stirling Horticultural Society.

Arriving at the Floral Clock at 11:15 a.m., a number garbed in raincoats viewed a portion of the scenery at the Horticultural Building. This floral clock is a magnificent masterpiece of some one thousand plants. It was built in 1950 by the Niagara Regional staff and is modelled after one of the Princess St. Gardens in Edinburgh, Scotland, with a 500 pound hour and minute hands and a 250 pound second hand. This is situated on a slope across from the Sld Adam Beck Niagara Generating Stations.

Next in line to visit was this huge building with a 400-ft tunnel leading to the generators and meter rooms. A very efficient lady guide, who knows the answers to every question, accompanied each 20 people. The meters and generators were most interesting and the long fall of water nearing 300 feet. In the meter room was an automatic machine which tallies the recordings every hour. Films were also shown in another

part of the building. Free tours of the Sir Adam Beck Generating Station can be had from 9 a.m. to 4 p.m. each day, including Sundays and holidays.

The "Little England Village," the Aero Car over the whirlpool and the Indian Village were closed due to the heavy rainfall.

The Table Rock and Crown Jewels found many spectators, although the lights were off at Table Rock for about 2 hours.

The Oakes Garden Theatre was beautiful and the interested horticulturists had several enquiries concerning the different plants, shrubs and flowers and their care.

The 300 foot Seagram's Tower was well worth visiting and some were in attendance to view the illumination of the Falls at the close of the visit. In daylight one can see 40 miles distant from this tower.

The Auto Museum drew many visitors. Here we saw the beginning of "The auto in the roaring twenties." Some 50 cars are on display.

Now the Wax Works, Louis Tussard's English Wax Museum. One is at a loss to give a worthy explanation of this building's displayed craftsmanship. Christopher Columbus, Abraham Lincoln, Mark Twain really rocking and fro in his old rocking chair, Helen Keller and Alexander Graham Bell conversing, the medicine man, with 200 and some uses for peanuts, its oil and salve, and the last, the burning falls.

Niagara Falls Museum, founded in 1830, the oldest in North America, is full of exciting things.

Then the Potvin Museum — if you've missed this there has been a lot lost. 22 individual scenes carved by hand with plain jack knives. All figures are made of wood. "The Last Supper" is beautifully carved from White Holly (in 1948) and was Potvin's last masterpiece before his death. Several scenes were in motion, true replicas for the year each represented and were most skillfully done as well as humorous.

Despite the continuous rain, little did it dampen the day's adventures, for several could be heard say — "If we are getting rain in Stirling, well I don't mind getting wet." But alas, it wasn't so at that time.

The illumination of the Falls was the final picture of loveliness which several were viewing for the first time. It seems it takes nature along with man to create beautiful things. Though the mist at the Canadian Falls was high at the lighting time, it still created wonderful beauty. White clouds were rising, followed by pink, green, blue and as each colour appeared the one previous seemed to be rising higher and higher, trying to contact the clouds in the sky.

Flash after flash of interested visitors' cameras got a glimpse of these wonders to take to the folks at home.

Arriving in Stirling at 3:15 a.m. on Tuesday morning all felt the trip well spent, both money, hours and sleep. Parents of school age children

should not hesitate in taking their children to Niagara, for the vast education they can procure from all these attractions, both for the present as well as historical value.

And the hospitality on a bus tour creates peaceful and pleasant thinking as well as memories, although in our busy life, we seem to find so little time for visiting, so these visits on bus trips "fill in" that space where otherwise it would be lost.

Some of the ladies from Belleville were heard to ask, "When are you taking another bus trip?" so pleased with the day's outing, so the Horticultural executive got busy and are chartering a bus for Toronto Exhibition for Saturday, August 24th. To be the early bird call Mrs. F. Armstrong or Mrs. Ray Rose and say "Count me in."

The Good Driver

"Has it ever occurred to you that you'll never quit learning to drive until you quit driving?" This question is asked in an article in the Ontario Traffic Conference Newsletter for July, quoted by the Ontario Safety League.

"In driving, every year something new is added. Your new car, for instance. You have to learn how to use it, start it, drive it, and get the feel of it. Your dash might be different than it was in the old buggy; you'll have to train yourself to look for the gauges in different locations.

"New roads are built, new signs put up and old ones relocated. New laws are passed that may apply to you. You've got to keep up on all of these things or you'll learn the hard way.

"A good driver is a constant student of driving. He is always learning from his own experiences, from various kinds of instructions, and from the experiences of others. When we stop learning to drive we are apt to stop living.

"Let us compare dancing to driving. A good many of us took dancing lessons in school when we were kids. But dance music and dance steps have changed. It's pretty difficult to waltz to rock-and-roll, or the twist. If we had kept up with our dancing as we have done with driving, we would not be a dead stick on the dance floor.

"Most of us think that we are our own teachers in this driving business, but we're wrong. Our classroom might be our car, or our home or a meeting room. Everytime a policeman pulls us over to the curb or road side, we should have learned something. Every time we have to explain how we ran into a ditch or got stuck we learn something. Every time we have a close-call we should definitely have learned something."

At 60 miles an hour, with good brakes and dry pavement, it is difficult to stop, allowing for reaction time, in much less than the length of a football field.

Norman Samuel Cooney and Agnes Jean Anne Mayhew Exchange Vows

A pretty summer wedding was solemnized in Cherry Valley United Church on Saturday, July 20th, 1963, at 1.00 p.m. when Agnes Jean Anne Mayhew, daughter of Mr. and Mrs. K. P. Mayhew, Picton, was united in a double ring wedding ceremony to Mr. Norman Samuel Cooney, son of Mr. and Mrs. Theodore Cooney, of R.R. 1, Stirling, Ont.

The Rev. Puttenham, of Cherry Valley, officiated before a background of white mums and tall standards of pink and white gladioli. Pretty white satin bows marked the guest pews.

The wedding music was rendered by Miss Evelyn Moore, of Cherry Valley, who also accompanied the soloist, Miss Helen Morrow, Stirling, in her rendition of "The Lord's Prayer" previous to the ceremony and "The Wedding Prayer" during the signing of the register.

The bride, given in marriage by her father, was radiant in a floor-length bridal gown of white, organza over taffeta with scoop neckline and long lily point sleeves. A white satin cummerbund met in a fan shaped bow covering the back with long tails falling from the bow. Her shoulder-length veil fell from a head-piece of white chiffon roses and seed pearls and she carried a cascade of red roses interspersed with white poms.

Mrs. Marvin Cooney, of Stirling, was matron of honour and Misses Linda Mayhew, sister of the bride,

and Linda Buzzell, of Picton, were bridesmaids. All wore identical street length dresses which matched the bride's dress, in white, with blue cummerbunds and bows, blue headpieces and veils with white accessories. Each carried a nosegay of white shasta daisies tinted blue with blue satin streamers.

Little Miss Charlene Haw, of Bay-side, niece of the bridegroom, was adorable as flowergirl in her white nylon dress with blue cummerbund and accessories, carrying her basket of pink carnations.

Mr. Marvin Cooney, Stirling, brother of the groom, was best man. Mr. Edward Mayhew, brother of the bride, and Bob Cooney, nephew of the groom, were ushers. Master Donnie Cooney, Frankford, was ring bearer.

The reception was held at Cherry Valley Church Hall. The bridal table was centered by a three-tiered wedding cake with the traditional bride and groom decoration, surrounded by red roses at the foot. The bridal bouquets added to the decoration, while pink candles in crystal holders completed the nuptial setting.

The guests were received by the bride's mother who wore a two-piece dress of soft pink, white accessories and a white carnation corsage. The mother of the groom was attired in a navy dress with lace front, pale pink accessories and a corsage of pink carnations.

For a wedding trip to Northern Ontario, the bride chose a white eyelet dress over pink taffeta with pink sash at the waist. A matching pink hat, white accessories and a pink corsage completed her ensemble.

Guests were present from Stirling, Picton, Sarnia, Renfrew, Englehart, North Bay, Ottawa, Trenton, Toronto, Belleville, Batawa and Frankford.

The couple will reside at R.R. 1, Stirling, Ont.

Previous to her marriage the bride was honoured at a miscellaneous shower at the home of Mrs. Bob Green, who was assisted by Miss Carole Burgess, of Stirling.

On July 30th, Mr. and Mrs. Gered Wood, of Cherry Valley, were hosts to friends and neighbours in honour of the bride couple.

If you stop to think, you stop forest fire.

Mrs. Jack Dunham
Hostess To
Wellman's U.C.W.

Mrs. Jack Dunham was hostess to the ladies and their children of Wellman's United Church. There were 13 adults and 14 children in attendance.

Mrs. John Carlisle gave the call to worship, following with everyone singing the hymn, "For the Beauty of the Earth." Mrs. Frederick Beckett was the musician.

Miss Mary Dracup conducted the worship service with the introduction "Bring to God Your Gift." The hymn "Tell Me the Stories of Jesus" was sung, followed by prayer by Miss Dracup. Lloyd Dunham read from the Bible Matthew 25: 1-13 which is the parable of the talents. Miss Dracup then read a commentary on "Where Is Thy Talent." She brought out the comparison that it takes the talents of every individual to make the world harmonize, the same as it takes the music of each individual in an orchestra to make it harmonize. The hymn, "The Wise Men Bring Their Learning," was sung, concluding the devotional period.

The minutes read by the Secretary, Mrs. Kenneth Tompkins were approved. The ladies were reminded of the

sale at Hoard's on Monday, August 12th. Little Miss Virginia Pollock took up the offering which was dedicated by the President.

The program, which had been prepared by Miss Nancy Tompkins, followed, including a piano solo entitled, "He Shall Feed His Flock," by Miss Carol Seeley. Miss Dawn Beckett sang, "When He Cometh," accompanied by Mrs. Beckett. Ralph Dunham put on a "Musical Term" contest. Miss Tompkins held a game of "You Don't Say," using the names of persons from the Bible. Both the adults and children took part.

Mrs. Carlisle thanked everyone who helped in any way with the program and the hostess, following which everyone repeated the Lord's Prayer.

Refreshments were served by Mrs. Dunham and her assistants. Everyone enjoyed a social time.

ACHIEVEMENT

For those who will take time to ponder it, here is a thought-provoking piece of advice from Henry Ford: "Make your programme so long and so hard that the people who praise you will always seem to you to be talking about something very trivial in comparison with what you are really trying to do."

PEACHES

Fresh Canadian peaches on the market this month are a welcome addition for the dessert course whether eaten raw or in pies, puddings or frozen desserts. The freestone types suitable for canning and freezing are usually in best supply late in August and September.

When you buy peaches consider how soon you are going to use them. Sort them over and use the ripest ones first. The under-ripe ones should be left at room temperature to ripen. The fully ripe ones should be stored in the refrigerator.

Look for Canada No. 1 grade on the container. It is your assurance that the peaches are hand picked and sized, sound, of uniform maturity and of good colour for the variety.

The home economists of the Consumer Service, Canada Department of Agriculture suggest these peach desserts.

Butterscotch

Peach Pie

(a) A flavourful peach pie with lattice crust

4 cups sliced peaches
1 tablespoon lemon juice
1 cup brown sugar
2 tablespoons cornstarch
OR 1 cup flour
1/2 teaspoon salt
1/2 teaspoon cinnamon
3 tablespoons butter

Line pie plate with half the pastry. Sprinkle sliced peaches with lemon juice. Mix dry ingredients. Add to peaches and mix thoroughly. Arrange peaches in pie shell. Dot with butter and cover with a lattice of pastry strips. Bake in a very hot oven (450 degs. F.) for 10 to 15 minutes. Reduce heat to 350 degs. F. and bake until done, 30 to 35 minutes. Serve

warm. Six servings.

Peach Custard

(Subtly flavoured peaches in custard sauce topped with meringue)

4 cups sliced peaches (6 large)
1 tablespoon lemon juice
2 tablespoons sherry
3 egg yolks
1/2 cup sugar
1 1/2 cups milk
1 1/2 teaspoons cornstarch
1 cup milk
1 tablespoon juice from drained peaches
3 egg whites
Dash salt
6 tablespoons sugar

Slice peaches and sprinkle with lemon juice. Pour sherry over peaches. Let stand for half an hour, then drain, reserving juice.

Beat egg yolks and 1/2 cup sugar until creamy. Scald the 1 1/2 cups milk in a double boiler and pour over yolk mixture. Combine cornstarch with 1/2 cup milk and stir it into custard. Cook custard over simmering water until thickened. Cool slightly and add juice from peaches.

Pour custard in oven dish and arrange peaches over them. Make a meringue of egg whites, salt and the 6 tablespoons sugar. Pile meringue on top of custard and brown in a hot oven, 425 degs. F., until lightly browned, about 5 minutes. Chill before serving. Six servings.

Frozen

Peach Fluff

(A refreshing, cool dessert, convenient to make with canned evaporated milk).

1 cup evaporated milk
1/2 teaspoon lemon juice
1 1/2 cups peach puree
(4 or 5 peaches)

2 tablespoons lemon juice
1/2 cup sugar

Chill evaporated milk in refrigerator tray until soft ice crystals form through milk (30 to 35 minutes) or chill unopened can in freezing compartment for several hours. Pour milk into cold bowl, add 1/2 teaspoon lemon juice and beat until stiff.

Peel peaches and press through a coarse strainer. Add lemon juice and sugar immediately. Fold peach puree into whipped milk. Pour into refrigerator trays and freeze to mush. Beat with a fork and freeze until firm. Garnish with sliced peaches. Six servings.

River Valley Women's Institute

Mrs. Gerald Brooks and Mrs. Stanley Irven were hostesses for the August meeting of River Valley Women's Institute with twenty members, six visitors and several children in attendance. Mrs. Vernon Harry presided and opened with the Ode and Mary Stewart Cole.

Mrs. Ernest Carr gave the June report and read the correspondence. The short course for copper tooling is November 18th and 19th. It is hoped some one can prepare a safety exhibit for Stirling Fair. Mrs. Carr thanked the W.I. for her trip to the Officers' Conference at Guelph.

Mrs. J. R. Donohoe gave a full financial report re catering for the banquet for Grand Master Earl Fox and for the cheesemakers' June meeting at the factory. The Institute catered without charge for the official opening of Shamrock Cheese Factory. Donations were received from several members.

Mrs. Roy Tucker gave her A.C.W.W. report and collected Pennies for Friendship. The June offering was \$1.36. She read a message re UNESCO coupons and how they assist needy villages.

The conveners reports were as follows:

Health, Mrs. Jack Bush; Current Events, Mrs. Charles Wilson; "A Way of Harvesting Strawberries," Mrs. Roy Tucker; Erection of a 4-H cairn on May 12th to commemorate the first 4-H Club in Canada at Roland, Man., 60 years ago, by Mrs. Gerald Brooks. Mrs. Percy MacMullen read a letter from the Friendship Link Secretary at Abbot's Leigh W.I. in England. They will celebrate their 25th anniversary this autumn.

For Public Relations Mrs. MacMullen thanked the group for her ticket to the banquet in Peterborough for Mrs. Van Beekhoff, President of the A.C.W.W. and displayed her picture and message. She gave an outline of F.W.I.O. resolutions spent to the Ontario government. She said the Women's Institute of Buckinghamshire in England presented one of their members, Princess Alexandria, with a picture of an Elizabethan Bible cover embroidered with fifty-two thousand stitches.

Mrs. George Hoasman has received a letter re our adopted child. The gift money was used to purchase shoes for the boy.

Programme

Mrs. Allan McDonnell presided over the programme and read an interesting article on Prince Edward Island, the birthplace of Confederation held at Charlottetown. Roll call was answered with cities and provinces of Canada.

Mrs. Arthur Pyear, President of the Lady Directors of Stirling Fair Board, thanked the Institute for the donation of six dollars for a special prize and for the idea. She gave an outline of what has been planned for Stirling Fair and had a few prize lists which were available to the group. She asked the Institute for co-operation in improving the Fair. Stirling has had a continuous Fair for over one hundred years. The Ladies' Division has been organized for four years and new ideas are needed.

Miss Cheryl Utman contributed a piano solo. Miss Winnifred Donaldson, R.N., Belleville, gave a message on the new proposed Health Unit for Hastings County. She outlined the work and answered many questions.

Mrs. Jack Bush voiced appreciative thanks to both speakers and presented each with a small gift.

The summer Home and Country magazines were distributed.

The Institute voted to approve the Health Unit if Hastings County Council favoured the idea.

A substantial donation was received from Mrs. Reg Coombes and her message read.

The lunch committee served sandwiches, relishes and hot and cold beverages.

Mrs. Ross Bush voiced appreciative thanks to all who had contributed to the success of the afternoon.

WEED OF THE WEEK

GOLDENROD

Once considered to be the principal cause of hay fever, goldenrod has long since been acquitted of this crime in favour of the less picturesque ragweed. Both plants shed pollen profusely and both are capable of setting up nasal irritations but tests have proven that goldenrod pollen is heavy and will travel only a short distance, whereas ragweed pollen is light and buoyant and can be carried considerable distances by wind.

There are hundreds of species of goldenrod which are at home almost everywhere in America, whether it be in the fields, swamps, mountains or roadsides. It is perennial in growth and spreads by both root stocks and seeds. Different species range from a few inches to several feet in height but all burst into bloom in late summer or early fall. There are myriads of small yellow blossoms arranged in wand-like clusters.

Goldenrod is no problem in crop

land since it cannot survive cultivation, says the Soils and Crops Branch of the Ontario Department of Agriculture. Along roadsides or in rough pastures or waste land, goldenrod is likely to take over and crowd out other more desirable locations. It just sends out more root-stocks and new leafy flowering stems. It is not palatable to livestock so pasturing does not keep it down.

Goldenrod can be controlled with 2,4-D sprays. This weed killer, applied once or twice a year in the early stages of growth, for a couple of years will make goldenrod disappear like magic. On rough pasture land or along roadsides such a treatment will get rid of a lot of other more pernicious weeds as well.

In spite of its autumn beauty, goldenrod has no place on productive land or on roadsides.

More information on control is available from your Agricultural Representative's office. He can supply you with publication No. 75, "Guide to Chemical Weed Control." Commemorative Ceremonies Mark Anniversary of Battle of Crysler Farm

(By Reg Workman)

On a cold overcast day on November 11th, 1813, a force of 800 men, comprised of British Regulars and Canadian Units, under the command of Lieutenant Colonel Joseph Morrison, repulsed a superior American force under the command of Major-General James A. Wilkinson at Crysler's Farm, about six miles east of Morrisburg on the St. Lawrence River.

The sacrifices of the British and Canadian troops on that day assured the continuance of Canada as a nation and equally important the way was paved for two great allies to enjoy a century and a half of peace.

Commenting on this significant Battle of the War of 1812, at special commemorative ceremonies at Crysler's Farm Battlefield Memorial near Upper Canada Village last Wednesday afternoon, Ontario Prime Minister The Hon. John P. Roberts said: "We are commemorating a gallant battle in which a handful of determined men may have saved a struggling young nation. Equally important, we are offering our grateful thanks to the 150 years which have followed — 150 years of peace between two dynamic young neighbours."

Premier Roberts went on to tell his warm July afternoon audience, of more than 1000, that in this commemorative ceremony and the nearby historic Upper Canada Village "We are proud of our past; this fine preservation of our heritage is proof of this. We in Ontario are moving with vitality and enthusiasm into the future. The future ahead of us is very great. But we must never allow ourselves to forget the great deeds of men and women such as we honour here today."

The Prime Minister was introduced by Attorney General The Hon. Fred M. Cass, MPP Grenville-Dundas. Hon. James Auld, Minister of Transport and acting chairman of the Ontario St. Lawrence Development Commission was master of ceremonies for the colourful programme.

Unveiling of plaques included the following:

150th Anniversary, The Hon. Fred M. Cass.

British 49th Regiment of Foot, Hon. J. R. Simonette.

British 89th Regiment of Foot, Doctor J. L. Carroll.

Battle of Crysler's Farm, Fern Guindon, MPP Glengarry and Vice-Chairman of the Ontario St. Lawrence Development Commission.

A plaque was also unveiled to Indian Chief Tecumseh for the vital role played by the Indians in the war of 1812. Members of the clergy dedicated the various plaques.

The colourful march past included: The Princess Louise Dragoon Guards, Les Voltigeurs de Quebec, Brockville

Rifles, S. D. and G. Highlanders, Legion Colour Parties, Royal Canadian Signals and S. D. and G. Pipe Band.

4-H Tractor Club

The July meeting of the 4-H Tractor Club was held in Ontario Department of Agriculture Board Rooms, Stirling, on July 22nd at 8.30 o'clock. Mr. Owen Gibb discussed parts of the tractor with the boys.

The next meeting will be held in Madoc on August 19th.

CONSERVATION NEWS

PROJECT "NIPPER" A SCIENTIFIC STUDY ON JACK RABBITS

Under the Game and Fish Act it is against the law to possess live game without the authority of a licence. The Department of Lands and Forests have always strongly urged the public to leave wild animals where nature intended them to be.

Only under rare and certain conditions will a licence be granted to keep live game (bird or mammal) in captivity. Particularly does this refer to moose and deer, bear and wolves and all animals classed as fur-bearers, and to migratory birds and native game birds.

But once in a while it is necessary to give someone permission to retain a certain game species for scientific reasons. Such was the case cited by Conservation Officer Claude Winters, of Wellington, in the Tweed Forest District.

Claude has been assisting in a study of European hare (jack rabbit to the hunter) in Prince Edward County in co-operation with the Ontario Agricultural College. Part of this study is to capture young rabbits, rear them to a certain age and release them after a collar has been attached and accustomed to. Affixed to the collar is an electronic device whereby the movements of the rabbit can be traced upon its release.

One such jack, renamed "Nipper" by its attractive young captor, is now being successfully raised with the aid of a plastic syringe from which it is fed milk, vegetable matter palatable to young rabbits, and the fortitude of Doreen Benway, daughter of a Hillier Township farmer.

Claude has recommended a possession permit in this case and is keeping a watchful eye on its outcome. So are we! Who are we to interfere with science and the march of progress.

LEGION NOTES

This is the last in a series of three articles dealing with the views of the Royal Canadian Legion on the issue of a national Canadian flag.

Last week, we pointed out that the Canadian Red Ensign has flown over the Houses of Parliament for some 18 years. During that same period, it has flown over all Canadian embassies, military establishments, schools, post offices and tens of thousands of other public and private buildings. It is recognized throughout the world as Canada's flag.

The Legion finds it difficult to believe that the Red Ensign should now be torn down and replaced by some strange emblem. This difficulty in understanding is given more emphasis when we consider the fact that not one of the over 2,000 designs so far proposed has succeeded in receiving any popular backing from a significant part of the Canadian population. While the Red Ensign may not receive total acclaim, no other flag has been given general public approval despite 18 years of propaganda and agitation.

If even the ill-informed or the fence-sitters would take the time to study the Canadian Red Ensign, we are sure they would have to agree that it is a most appropriate Canadian flag which any Canadian would be proud to possess and keep.

The Union Jack in the corner is a

proclamation of Canada's full partnership in the world's greatest free, democratic association of nations — the British Commonwealth.

The Shield is a basic part of Canada's coat-of-arms. It was granted to Canada in 1921 by the late King George V. In 1957, this was slightly altered when the colour of the maple leaves was changed from green to red.

The Shield also contains the emblems of our four principal founding races — English, French, Scotch and Irish together with our national emblem, the Maple Leaf.

All of this is placed on a red background, a colour which for years has been the symbol of courage.

There are those who oppose the Red Ensign by saying that it has no meaning to the many new Canadians. If this is true, then it may also be said that the Stars and Stripes has no meaning for the thousands of immigrants to the U.S.A.

Actually, a great many new Canadians hold the Red Ensign in high regard — especially those who come from countries which have been liberated by Canadian forces. In fact, it is quite possible that these new citizens have a higher regard for the Ensign than some native-born Canadians who have never taken the time to really consider the matter.

In these three articles, the Legion has outlined its basic reasons for supporting the Canadian Red Ensign as our national flag. What can one do to support this view? The Legion suggests two things. First, show by your own example — fly the flag. Second, when you have the opportunity let your member of parliament know your feelings on this important matter. The Legion will continue to press the government for definite

action on the Ensign.

Roy Thrasher Observes 80th Anniversary

On Saturday evening, August 3rd, Mrs. Milton Shaw sponsored a delightful birthday party at the home of her parents, Mr. and Mrs. Roy Thrasher, Mount Pleasant, in honour of her father's eightieth birthday anniversary.

Mr. and Mrs. Thrasher were expecting their family, Mr. and Mrs. Milton Shaw and Mr. and Mrs. Wayne Shaw, of Ivanhoe, for the evening but they were pleasantly surprised when 12 other guests arrived. They were Mr. and Mrs. Will Potts, Mr. and Mrs. Gordon Linn, Mr. and Mrs. George Weaver, Mr. Ross Hoard, Mr. and Mrs. Frank Jeffs, Mr. and Mrs. John Holmes and Mrs. N. E. Eggleton, all old friends and neighbours. Despite the heavy electric storm the group enjoyed an evening of reminiscing.

Edna and Milton Shaw served delectable refreshments which included a decorated birthday cake with lighted tapers.

Roy received personal gifts and a shower of over fifty birthday cards. One was from the local United Church Women. Friends extended birthday felicitations.

Hog and Beef Quality Up

Canadian consumers are getting better beef and pork than ever before. Figures just released by the Canada Department of Agriculture show that the quality of beef cattle and hogs which came onto the market during the first half of this year was markedly higher than in the same period in 1962.

During six months this year 38.3 per cent of the beef carcasses graded "Choice" compared with 35.1 per cent in the first half of 1962. Hogs were improved too. In the first half of this year, 36.4 per cent of the hogs graded "A" while 34.3 per cent graded "A" in the same period a year ago.

The improvement in beef carcass quality in the past 15 years has been dramatic.

In 1948, only 7.6 per cent of the cattle made the "Choice" grade. By 1958, the figure rose to 24.1 per cent. By 1962, the percentage was 32.

The number of cattle graded during the first six months of 1963 was up compared with the first half of last year — 1,027,546 compared with 975,509. Hog gradings were down: 3,223,368 compared with 3,507,723.

The percentage of Standard or Brown Brand beef has remained fairly constant at 8.7 per cent of total gradings.

Number of lambs graded during the first half of 1963 was down — 107,721 head compared with 119,111 in 1962. While it is too soon to tell what effect the federal quality premium will have on improving lamb carcasses, there has been a definite trend towards more lambs being marketed within the recommended weight ranges.

Alberta hog producers have made the greatest improvement in hog quality since grading was started back in 1922. As recently as 1960, only 22.4 per cent of Alberta hogs graded "A" while 15.2 per cent fell

down into the "C" grade. In 1962, the percentage of "A's" rose to 35.1 and the percentage of "C's" decreased to 8.1. Further improvement is indicated for this year. In the first six months of 1963, Alberta hogs graded 35.7 per cent "A's" and only 7 per cent "C's".

Juveniles Eliminate Northport and Deseronto Along Playoff Trail

Meet Norwood In Hastings Under the Lights Saturday Night in the First Game

Stirling Juveniles have advanced along the O.A.S.A. Juvenile "C" play-down trail in the past two weeks by eliminating Northport and Deseronto in two straight games in each series. Their next opponents will be Norwood with the first game at 8:30 p.m. Saturday night at Hastings.

Northport Series

In the first game at Northport the locals won 8 to 3 with Thompson doing the pitching. Donohoe led the local hitters with two homers. In the return game here Bolte started on the mound for the local and H. Jeffs, who arrived late, took over in the third inning. Northport opened the scoring in the first inning but Stirling went ahead with three runs in the third and were never headed. The visitors made it close with a run in the 5th and one in the 7th, but Stirling came up with a barrage of base hits in the 8th to push across seven runs to clinch the verdict.

Deseronto 5 Stirling 12

Last Saturday Deseronto and Stirling clashed on the Henry Street diamond in the first game of their series, with the locals winning by a score of 12 to 5. The game was played before a good crowd of fans who saw a real close tussle until the eighth inning when the locals swung their bats lustily to run up eight tallies for a commanding lead.

Deseronto scored the opening run in the first inning and led until the bottom of the fourth inning when Doug Potts and Andy Faulkner hit homers and Glen Hagerman a triple to score three runs and take a 3-1 lead. They added another in the 6th on Potts' triple and G. Hagerman's single. The visitors tied the score in the top of the 7th with three runs coming on two walks, a double by A. Brant and singles by Sero, Detlor and W. Brant. However the Stirling boys came to life in the last of the same inning when thirteen men went to bat and eight runs were scored. Rodgers had a homer, Faulkner a double and Noble, Hagerman, Bolte singles, Potts and Smith walks which along with three errors accounted for the runs. Deseronto scored one in the 8th with Whitton crossing the rubber.

Rodgers starred in the field with a circus catch of a line drive and a throw to home plate to cut down a runner going home from third.

Won In Deseronto

In Deseronto on Monday night Stirling defeated the home team by a score of 8 to 1 in the second game of the series.

Howard Jeffs was on the mound for the winners and pitched shut-out ball with the exception of the third when the losers got their only run. He had five strikeouts and Deseronto went down in order in every inning with the exception of the 3rd, 6th and 8th. He gave up one walk and four hits.

Brant on the mound for Deseronto had six strikeouts to his credit but gave up eight walks and eleven hits.

Stirling opened the scoring with a run in the first inning and added two in the second for a 3-0 lead before Deseronto got one in the bottom of the third. They added one in the sixth and two each in the 7th and 8th.

Hay Bay Pilgrimage

The annual pilgrimage to Hay Bay United Church will take place on Sunday next, August 25th, with service at 3 p.m.

"At Home"

Mr. and Mrs. Lorne Brooks, R.R. 3, Stirling, will be "at home" to their relatives and friends on Sunday, September 1st from 2 to 4 p.m. and 7 to 10 p.m. on the occasion of their 50th wedding anniversary.

Wife of Former H.S. Principal Passes

Word was received by friends here of the passing of Mrs. Milton Halpenny in Aymer, Ont., on Thursday morning last. Mrs. Halpenny was the wife of D. M. Halpenny, a former Principal of Stirling High School, and was well known to many local residents. Mr. and Mrs. J. B. Belshaw and Mr. and Mrs. G. B. Bedford attended the funeral on Saturday.

Swings "Cradle" At 85 Years

J. B. Belshaw, a local resident, who is 85 years young, had some oats in his garden plot ready for harvesting yesterday. So taking down his trusty "cradle" he proceeded to cut the grain. He also raked it up with an old-time wooden rake and bound it into sheaves by hand. "Keeping active," says Mr. Belshaw, "is the secret of staying young."

Bush Family Reunion

A pleasant time was enjoyed on August 11th when approximately seventy members of the Bush family gathered at the Oddfellow's Hall to be with Mr. and Mrs. George Bush, of Wyandotte, Michigan.

After a sumptuous meal, the afternoon and evening were spent reminiscing, picture taking, and listening to accordion music by Kenneth Couch.

Plans were made to hold an annual gathering on the second Sunday in August.

Peterboro Bantams Eliminate Springbrook

Spring Brook Bantams lost out in their O.A.S.A. play-offs to Peterboro UEs in two straight games over the week-end. However, they put up a good showing against superior opposition. The Peterboro pitcher (6 ft. 2" and 180 lbs.) towered over his opponents and just overpowered the Spring Brook hitters with his blazing fast ball. Vanhorne pitched well but his support in the field was very shaky. The scores were 21-1 in Peterboro on Saturday and 22-5 at the local playground Monday night.

Large Barn and Contents Burned

Fire of unknown origin destroyed the large barn and contents belonging to Roy and Glenn Bush, 8th Concession of Sidney, early Sunday morning. Included in the contents were large quantities of hay and grain, two wagons and some fifty hens which were housed in an attached building. Mrs. Glenn Bush awakened about one thirty a.m. to discover the blaze, which had made such headway that only the rafters were standing. Her husband had been at the barn at 12:30 a.m. when everything seemed in order and cause of the blaze is a mystery.

Fire units from Belleville and Hatawa responded to an alarm but by the time they reached the scene the blaze was beyond control and their efforts were directed to saving the adjoining buildings. Neighbours formed a bucket brigade to assist in saving a pig pen and carriage house, although one side of the latter building was badly scorched.

The cows were driven to the farm of Ross and Harold Bush for Sunday morning's milking but during the day neighbours assembled enough equipment to provide a milking chamber in a building across the road from the former barn.

LOCAL BOY AT SCOUT JAMBOREE

Over 14,000 Boy Scouts from 85 nations gathered for the 11th World Jamboree at Bay of Marathon, Greece, Field Sports, lots of swimming in the blue mediterranean, classical games such as the Triathlon, and a visit by H.M. the King of Greece were included in the colorful programme.

The contingent from Canada comprised 440 Scouts. The World Jamboree was held on the site of one of the earliest battles vital to democracy. Here, in 490 B.C., 10,000 Greek soldiers under Miltiades repulsed the invasion of Persian King Darius.

Washing up before breakfast are (left to right): Bill West, Stirling, Ont., and Griff Tripp, Peterboro, Ont. The former arrived home this (Thursday) morning.

Mr. and Mrs. Robert Chambers Honoured by Relatives and Friends

A pleasant time was enjoyed on Saturday night when between 60 and 70 neighbours and relatives gathered at the home of Mr. and Mrs. Raymond Chambers, Stirling R.R. 4, to spend an evening with their son and bride, Mr. and Mrs. Robert Chambers, of Sudbury.

Chairs were placed on the veranda and lawn so all could see the lovely coloured slides shown by Mr. and Mrs. Carl Reid on views of airplanes and boats arriving, homes, schools etc. at Pond Inlet, Baffin Island, where Mr. Reid had taught school and where he, Mrs. Reid and two little daughters have resided for the past few years.

Several were called on and Messrs. Nelson Stapley, Clarence Fitchett, Peter Heasman and Bruce Stapley spoke briefly.

Mr. and Mrs. Chambers were asked to take the special chairs placed for them, then Mr. Peter Heasman read an address extending best wishes and congratulations to the newly-weds.

made the presentation of an upholstered chair, flower hassock and beige wool blanket.

Robert expressed thanks for Anita and himself for the lovely gifts and for the warm good wishes of their friends. He also extended an invitation to friends passing near Sudbury to call on them.

All joined in singing "For They Are Jolly Good Fellows."

Everyone was then invited indoors. Lovely coloured pictures taken of their wedding at Sudbury were passed around for all to see.

The ladies served abundant refreshments of sandwiches, cakes, cookies, pickles and olives. Several of the young men present assisted in the serving of coffee and orangeade.

Burrell - Francis Wedding at St. Paul's

St. Paul's United Church, Stirling, was the scene of a pretty summer wedding on Saturday, August 10th, when Shirley Helen, daughter of Mr. and Mrs. Harry Francis, became the bride of Mr. Eugene Burrell, of Stirling, son of Mr. and Mrs. Henry Burrell, Paris, Ont. The ceremony was performed by Rev. P. J. Hommensen, before a background of gladioli and ferns. The guest pews were marked by white satin bows with lily of the valley.

The traditional wedding music was played by Mrs. Harry Brown, church organist, and Mrs. Sidney MacDonald, soloist, sang, "O Perfect Love" before the ceremony, and "I'll Walk Beside You" during the singing of the register. She also rendered "O Promise Me" during the reception.

Given in marriage by her father, the bride was radiant in a short dress of parchment white faille, with unpressed pleats, inset with braid, tapering from the waist to the bottom of a cotton skirt. The scooped neckline was outlined with complementary braid and long glove-like sleeves ending in lily points at the wrist. Her shoulder length veil gathered on a pearl and crystal tiara and she carried a cascade of miniature baby pink roses with ivy. She wore a strand of cultured pearls with matching earrings, the gift of the groom.

Mrs. Robert Maynes, of Marmora, matron of honour, was the bride's only attendant and wore a gown of autumn pink sheer faille with bell-shaped skirt and detachable jacket. Her bouquet was of pink rose buds and white baby's nuns.

Mr. Melghen Rodgers, of West Hill, was the groomsmen and Messrs. Geo. Loshaw and Robert Burrell, Stirling, were the ushers.

A reception was held in the church parlours with the bride's mother receiving her guests in a sky-blue pure silk jacket dress, and bone coloured accessories. She wore a corsage of pink roses. She was assisted by the groom's mother, wearing a rose coloured jacket dress of nylon over taffeta and bone-coloured accessories and a corsage of white roses.

The bride's table was contrived with a three-tier wedding cake decorated in pink and white with pink tulle around the base, and clusters of tiny pink rose buds, pink candles in crystal holders and the bridal bouquets completed the setting. Mr. T. Dodds acted as master of ceremonies for the customary toast list.

For travelling to the Maritimes the bride chose a dress of pure silk shantung in mediterranean blue, white accessories and a corsage of pink roses.

On their return the young couple will reside at 13 Wright St., Stirling.

Twilight Bowling Tournney Held

Members Madoc Bowling Club Were Guests — Pot Luck Supper Was Enjoyed

A twilight mixed doubles tournament was held on the greens of the Stirling Lawn Bowling Club on Thursday last, with ten pairs participating. This type of tournament was an innovation for the local club and proved very successful. Members of the Madoc Club were guests and Mrs. W. T. Elliott arranged the teams and conducted the draw. Five skips were chosen from each club and the leads, so far as possible, were chosen from the opposite clubs. Three ten-end games were played, with a potluck supper being served between the first and second game. The greens were in excellent condition and good bowling was enjoyed.

The high honours for the tournament went to Mrs. R. Taylor, Madoc, and H. R. Tompkins of the local club, with three wins and a score of 41 plus 10. W. E. Connor, of Madoc, and Ashley Brooks, Stirling, won the second prize with two wins and a score of 36 plus 1. The third prize went to Mrs. Colin Ross, Madoc, and F. R. Mallory, Stirling, with one win and a score of 25.

BOWL IN CAMPBELLFORD

LEGION NOTES

The Stirling Branch will hold its first business meeting since June on Tuesday, September 3rd, starting at 8.15 p.m. in the Legion Hall. During the summer recess many important decisions have been made by the Branch executive, and many more items are on the agenda for the consideration of the branch in general. Please note the date and time. All members are urged to attend this important meeting.

With the start of the fall season, Branch 228 enters a period of busy activity. It is a time when the support of all members is most needed. The officers and executive have worked hard to improve the branch and to expand its activities. They deserve the support of all members. Your attendance and participation at business meetings is one way in which you can support the Legion.

The business meeting on September 3rd will have a most important agenda. As the fall season approaches, our thoughts naturally turn to Remembrance Day on November 11th. Since the October business session is only a month away from November 11th, it is essential that preliminary planning must be done at the September meeting. Members will also recall that the matter of arena repairs was left for action until the September meeting.

Work on the new terrace floor in the hall went along rapidly for a time, however, some trouble was encountered in getting the floor to dry out. As a result, the finishing process has been delayed. The officers and executive regret this delay, however, it is hoped that the floor will be completely finished within the next ten days.

Stirling Women's Institute Meeting

Mrs. W. H. Cooke opened her home on Wednesday night to the Stirling Women's Institute for the August meeting.

The President, Mrs. Frank Smith, was able to attend and conduct the

meeting, welcoming everyone and expressing thanks for all the kindness shown her during her bereavement and illness; also the gift.

A "thank you" for fruit was received from Mrs. E. Luery and the members are happy to hear she is improving nicely. Communications were also received from Hastings County Farm Safety Council, 4-H Achieve-

ment Day, H.C. Competition and were placed on file.

A letter from Mrs. R. Patterson, Secretary of the Lady Directors of Stirling Fair Board, requested a donation for the Fair. \$3.00 was voted to donate and a section, "The Use of Canadian Apples."

The Secretary presented the bills, which included transportation of 4 ladies to Peterborough for the luncheon in honour of Mrs. G. Van Beekhoff, President of A.C.W.W.; treats for shut-ins and printing at News-Argus. These were ordered paid.

Federated News was due in July. Several renewed their subscriptions and others will be contacted about it after holiday time.

The quilt question was discussed at length. Enquiries were made re "quilts for sale." Some quilts are available but members agreed that a couple of quilts should be kept in reserve in case of burnt out families as this W.I. is always ready to give assistance where needed. It was decided that two ladies be appointed, Mrs. M. Ayrbart, assisted by Mrs. D. Luery, to purchase materials so as to set up more quilt work soon.

The Secretary was requested to send a message of cheer to a member who is not quite so well.

It was voted to hereafter serve cookies instead of cut cake at the

meetings along with sandwiches and relishes.

As the topic for the programme was Home Economics, the roll call was "My favourite recipe," with several giving recipes of interest for cakes, cookies, pickles, doughnuts and tarts.

"Home and Fireside," a paper, was well given by Mrs. G. Mumby, stating what a great art is cooking, preserving and gardening. Is it going out of fashion? Is it staying as is, or is it dormant and old fashioned? Not nearly enough literature is given to home-making, not nearly as many programs in our W.I. as there should be on homemaking, demonstrations, covering furniture, transforming the appearance of a room to make it just a little different and much nicer. There are too many push buttons in home living now. What's more satisfying than to take an old piece of furniture, and paint it another colour. Every magazine on home culture has on its display pages these changes in furnishings.

Getting back to cooking, are we contributing to our Fall Fair in doing cooking, needlework and sewing? Home is what one makes — a haven of rest for the weary ones that return from a day's work or just a house where the doors swing in or out.

"An Old Lady's Lament," a humorous reading, was given by Mrs. M.

Ward, followed by a contest, "Cities in jumbled word form."

Mrs. Dave Luery, who always has interesting readings, gave one on "Woman." Mrs. B. Reid put on a Biblical contest, which was really an education.

Mrs. F. Smith gave a short report of the luncheon in Peterborough where 419 women and a few men attended a reception at the Empress Hotel in honour of Mrs. G. Van Beekhoff of the Netherlands, stating the life they have and the close partnership she and her husband have in relation to their work. When the war was on this talented speaker changed her course of living — her father-in-law gave them a cow and she learned to make butter and cheese. She also learned to spin and weave and turned that material into clothing for the family to keep life a continuous thing.

If you give a man a fish, he will eat it, and he will be hungry again, so teach him to catch his own fish and he can get his own food. This is what she and her family were compelled to do.

She fully believed the Women's Institutes' first interest is under the guidance of our motto, "For Home and Country." In the field of "For Country" the Coins for Friendship is taking a prominent place in giving assistance to other less fortunate countries to help buy the little yet essential things needed.

During Mrs. Van Beekhoff's visit here two thousand and five hundred dollars was given to her by the branches to take back and use accordingly. She was much admired by all present. The calm and serene delivery of her address and so friendly a disposition just made her beloved and admired.

Mrs. L. Bronson took several shots of the day's attractions and the members of Stirling W.I. viewed them at this meeting.

A dainty lunch was served by Mrs. Cooke and Mrs. Ward and was much enjoyed, the same was expressed on behalf of those present by Mrs. B. Reid.

During 1962 there were 126,682 new housing units completed in Canada, bringing the 10-year total up to 1,196,000.

Mr. and Mrs. E. C. Hay-Ellis Tendered Farewell Party

On Friday evening friends in the River Valley community gathered at the school and tendered a farewell party to Mr. and Mrs. E. C. Hay-Ellis and daughter Linda, prior to their departure to Elmvalle where Mr. Hay-Ellis will assume his new duties as principal of Elmvalle High School.

Mr. Jack Bush was master of ceremonies and a short programme was enjoyed. Allan Carr read a humorous article and Mrs. Hugh Lyons read a poem. Mrs. George Heasman sang, "May the Good Lord Bless and Keep You." Mrs. Percy MacMullen contributed a reading, "Becky's Bargain."

Mrs. Philip Conley was pianist for a sing-song of familiar numbers. Mrs. Ernest Carr read a humorous story of an efficient executive. Mrs. Chas. Wilson conducted a hat game with six men participating.

Miss Marilyn Conley contributed a piano solo and Mrs. Francis Lyons read a poem on "Neighbours."

Mr. Charles Pearce gave a short address paying glowing tribute to Edgar and Gladys Hay-Ellis and also told of the joys of living in a rural community.

Mr. and Mrs. Hay-Ellis and daughter Linda were seated on the dais, and Mrs. Jack Bush read an address of appreciation. Six years ago they built a new home along the Trent River in the River Valley area and both have been active in church and Institute work.

Joyce Carr presented Linda with a blue bed lamp. Hugh Lyons, Dennis Heasman and Mrs. Charles Wilson made the presentation of a five-piece bridge set, a wool blanket in peach shade and a brass magazine rack.

Both Gladys and Edgar expressed sincere thanks for the party and the gifts, and invited everyone to pay them a visit at Elmvalle. They plan to spend their holidays each summer at their River Valley home and so will renew acquaintances then.

The ladies in charge served refreshments and following a social hour the group expressed their personal regrets and wished them a successful sojourn in Elmvalle.

When Spring Brook Horse Wins One It Pays Off

(Toronto Telegram)

Count Direct hasn't much of a record to be proud of — and he could

hardly be considered a good investment, but last week at Greenwood Raceway the eight-year-old pacing veteran made an impact on every one of the 5,071 fans.

The bay gelding won the seventh race and in so doing made for a payoff of \$123.00, \$26.00 and \$10.50, largest mutual return of the summer meeting.

Best Time

In 17 starts this season Count Direct, owned by Bill Preat, of Spring

Brook, has managed to win seven times but most of these victories came on the back road Dust Bowl Circuit.

Racing at Greenwood the son of Prince Direct has managed to be a "close" fourth but that was the best he could do before his effort in the seventh.

He not only paced like a champion to win, but also set a time record for himself. He completed the mile event in 2.08 3/5, bettering his old mark by

one-fifth of a second.

The Count's bankroll, in six years of racing, is meagre. At the end of the last year, a season which saw him earn \$1,166, his earnings amounted to a grand total of \$1,993. This season, including his winner's share of the seventh race purse money, his earnings are \$355.

One hundred and six \$2 tickets were sold on his number 8, eight at \$5, one \$10 pasteboard and 28 combine tickets.

Mr. and Mrs. Gary Everett Rowe are pictured following their wedding at Christ Anglican Church, Thomasburg. The bride is the daughter of Mr. and Mrs. Murray Morgan, West Huntingdon, and the bridegroom is the son of Mr. and Mrs. Delbert Rowe, Holloway, Ont.

Rowe -- Morgan Wedding

A pretty summer wedding was solemnized on July 20, 1963, at 3:30 p.m. in Thomasburg Anglican Church by the Rev. Gordon Black of Roslin assisted by the Rev. Dalton Woodward of Powassan, when Ruth Irene Morgan, daughter of Mr. and Mrs. A. Murray Morgan of West Huntingdon became the bride of Mr. Gary Everett Rowe, son of Mr. and Mrs. Delbert Rowe of R.R. 1, Holloway.

The church was beautifully decorated with standards of white and yellow shasta mums, delphiniums, and regal lilies interspersed with baby's breath. The guest pews were marked with white satin bows.

Traditional wedding music was furnished by Mrs. Arthur Bates of Roslin as organist and Mrs. Wm. Petherick of R.R. 2 Campbellford as soloist, who rendered two solos, "The Voice that Breathed O'er Eden", before the ceremony and "O Perfect Love" during the signing of the register.

The bride, given in marriage by her father, Mr. Murray Morgan, was elegant in her floor length gown of pure silk enhanced with an applied rounded neckline and three-quarter

length sleeves, accented with tiny wrist length gloves. Her fully bouffant skirt worn over many crinolines was complemented with lace appliques. The chapel veil of silk illusion was gathered to a double crown head-dress and she carried a white Bible topped with red roses from which fell streamers knotted with red rosebuds. She wore genuine cultured pearl necklace and earrings, gift of the groom.

Her sister, Mrs. Cecil Skinkle, of Belleville, was matron of honour, gowning in knee-length true blue chiffon over taffeta, with cowl neckline and short sleeves. The bouffant skirt was accented by a gathered midriff. The head-dress was of matching true blue chiffon with petite blue flowers and tiny veil. She carried a basket of yellow and white snapdragons and 'mums. The bridesmaids, Mrs. Gerald Russett of Harold, and Miss Karen Morton of Thomasburg were gowning exactly like the matron of honour, and carried baskets of yellow and white snapdragons and 'mums. Miss Bonnie Rowe, sister of the groom, as junior bridesmaid, was dressed similarly to the senior bridesmaids only in pale yellow, organza over white taffeta and carried a basket of blue and white snapdragons and 'mums. Completing the bridal party were

the demure flower girls, nieces of the bride, Darlene Morgan of Holloway, and Denise Morgan of West Huntingdon, dressed alike in pale yellow over white taffeta with Peter Pan collar, puffed sleeves and bouffant skirts. The miniature baskets were filled with blue and white snapdragons and 'mums.

Master Rodney Rowe, brother of the groom, was ring-bearer in his white trousers and blue blazer and carried a white satin pillow for the double-ring ceremony.

Mr. Gordon Rowe of Holloway attended his brother as groomsman, while Mr. Roscoe Morgan of West Huntingdon, brother of the bride, and Mr. Gerald Russett, Harold, ushered the guests.

The reception was held at Roslin Hall, where the bridal table was appointed with traditional white damask and centred by a three-tier wedding cake topped with bells, and two tiny doves holding miniature wedding rings, and misted about the base with white tulle. Tall white candles in triple silver candelabras and the bridal flowers completed the nuptial setting.

The guests were received by the bride's mother wearing a floral printed gored styled chiffon over taffeta, with tangerine hat and gloves and white shoes and a corsage of white roses. The groom's mother chose a dusty rose sheath with matching hat and shoes and a corsage of white 'mums.

The guests were served by the Misses Carol Denyes, Elaine Tufts, Mary Ray, Marg Ray, Linda Brough, Marilyn Kennedy, Marlene Tufts, Francis MacKenzie, Brenda Stanley and Linda Wilson.

Mr. Roscoe Robson a close friend of the family, acted as master of ceremonies and proposed a toast to the bride and the groom who responded. Mr. Gordon Rowe proposed the toast to the bridesmaids and the junior members of the wedding party. Brief addresses were given by Messrs. Murray Morgan, Delbert Rowe, Rev. Dalton Woodward, Rev. Gordon Black and Mr. George Pollard.

For their trip through the States as far as Tennessee and home via New Brunswick, Nova Scotia and Prince Edward Island, the bride changed to a three piece powder blue linen suit adorned with a printed blouse. Her flowered hat and accessories were in white with a corsage of red roses. On their return the young couple will take up residence at R.R. 2, Campbellford where the groom is a successful cheesemaker.

Among the many guests at the wedding were from Greenwood, Nova Scotia; Powassan, Metcalfe, Scarborough, Oshawa, Peterborough, Ramora, Campbellford, Coneseon, Bonarlaw, Wallbridge, Frankford, Stirling, Harold and Holloway.

The bride's gift to the groom was luggage and to her matron of honour and senior bridesmaids pearl earrings and drop pearl necklaces to the flow-

er girls and the junior bridesmaid.

The groom's gift to the groomsman and ushers were ties, tie bars and cuff links, and to the ring bearer tie bar and cuff links.

Prior to her marriage the bride was guest of honour at several social events including a miscellaneous shower held at the home of Mrs. Gerald Russett, of Harold, with Miss Karen Morton as co-hostesses; at a kitchen shower held by the parents of the bride's school pupils; at a presentation by the Thomasburg Anglican Sunday School and also one by the Church Guild of which the bride was a member.

"Canada produces almost everything"

If your home is not complete without a hippo, you'll have to import one. Search as you will, not a hippo can be found from St. John's to Victoria.

But almost everything else can, and the wise buyer knows that every dollar spent on Canadian goods keeps Canadians working.

To keep our economy strong, to make better job opportunities, to create jobs for those young people coming on to the labour market, we all must be "label conscious." Before you buy, look at the label. If the

price, design and quality are right, buy the product that is made here.

If each of us could divert just \$2.00 a week from imported to domestic goods, the result could total \$600,000,000 in Canada in one year! And that could help create 60,000 new jobs!

Buy a hippo if you must, but for almost everything else, check the label before you buy. It's in your own best interest. You help yourself, your neighbour and the whole province by giving Canadian products the opportunity to serve and satisfy you.

Elmer Sandercock Again Choice of Prog. Conservatives of Hastings West

Convention Held Here Last Night — Hon. J. Simonette Was Principal Speaker

Close to five hundred Progressive Conservatives gathered in Stirling Community Hall last night and chose Elmer Sandercock, of Belleville, as their standard bearer in the riding of Hastings West in the coming Provincial election for the fifth consecutive time.

Dr. R. Potter, President of the Riding Association, chaired the meeting and called for nominations which resulted in only two names being submitted: E. Sandercock and Jack Ireland, Belleville Alderman. The latter declined and Mr. Sandercock was acclaimed as the representative.

E. Sandercock
The candidate was given a standing ovation and in his acceptance address stated this was the fifth time he had been acclaimed at a Hastings West Convention and he was deeply appreciative of the support accorded him. He paid tribute to the late Theodore Tryon, of Bancroft, and the late J. Cole, of Glen Miller, former workers in the Conservative cause. He was proud of his record and expressed his thanks to various executive members, municipal councils and officials, with whom he had worked.

Turning to provincial matters he stated roads were a very important part of our economy. Hastings County which is 100 miles long and only ten miles wide, doesn't lend itself to too many roads, but he mentioned several of the roads either completed or in the course of construction in the riding. He also stated he had worked in close co-operation with C. Rollins, member of Hastings East, in having the highway completed from Bancroft to Belleville. A new bridge was needed in Trenton and the Provincial Government was ready to pay 75% of its cost provided the Dominion Government would contribute the remaining 25% since it was over the Trent River a navigable body of water. "He hoped to see this project completed in the near future," stated the speaker.

He was also endeavouring to have a provincial trade school established in the Quinte District and had hopes of success. He paid tribute to Lorne Johnston, a Rawdon Township boy, who was head of this branch of the Department of Education.

In closing he paid tribute to Premier Roberts and members of his cabinet and asked for the support of all in his re-election on September 25th next.

Clarke Rollins, M.P.P. Hastings East, spoke briefly and paid tribute to the work of Mr. Sandercock as the Hastings West representative. He also introduced Hon. J. Simonett, M.P.P. Frontenac-Addington, who was the principal speaker.

Hon. J. Simonett

"Today is a time of change," stated Mr. Simonett, "and the Roberts Government is careful that changes made are improvements along the road to progress." A positive approach was taken to problems facing the government ensuring the freedom of the individual, freedom of speech, freedom of the press, freedom of political and economic choice, and freedom of religion. The Progressive-Conservative Government endeavours to formulate policies that foster the growth of the people; the promotion of health and welfare, assistance to municipalities, development of national resources, and technical training. "45,000 new jobs were created last year," stated the speaker, "and unemployment was less than 4 per cent of the work force of the province."

In the field of education the Government had plans for increased assistance to universities and schools. The school enrolment is increasing at the rate of 70,000 per year and govt. grants for education were 233 1/2 million dollars, a 32 million increase over the previous year. Grants to elementary schools are increased from \$15 to \$20 per pupil, secondary schools \$5 to \$30 and vocational schools \$40. Expenditures in health services amounted to 132.6 million, with 56 million subsidy to Ontario Hospital Commission to provide free hospitalization to residents of the province. Many millions were also given to public hospitals, stated the speaker.

In closing he appealed for the re-election of Mr. Sandercock and the Roberts Government.

Brief addresses were also given by Keith Brown, M.P.P., Peterborough,

LEGION NOTES

At time of writing, no additional information has been received relative to the completion of the terrace floor in the Legion Hall. Present plans call for a general meeting of the branch to be held next Tuesday, September 3rd at 8.15 p.m. If there is a postponement of this meeting, efforts will be made to inform all members, however, it is hoped that the meeting will be held next Tuesday evening.

Should it be necessary to postpone the business session, it has been suggested that the branch hold a work party to finish up the exterior grading and filling. One good work party would finish all the outside work remaining.

Many Canadians are not aware that for many years, the Royal Canadian Legion has taken an active lead in the development of low-rental housing units for elderly citizens. At this time, it is estimated that the value of such Legion-constructed housing is over three and a half million dollars.

A few years ago, an elderly couple in some of our cities had to pay over \$50.00 per month for one or two bare rooms. Thanks to Legion developed housing units, it is now possible for the same couple to rent a fully equipped unit. Such units have complete privacy and provide all the convenience that any modern home can offer.

In Ontario, Legion-constructed low-rental units are to be found in Toronto, Ottawa, Kitchener, Orangeville and Ancaster. The value of these units is estimated at over seven hundred thousand dollars. This is just one more illustration of the vital role being played by the Legion in our communities.

The Legion stand supporting the Canadian Red Ensign as our national flag has received wide publicity and support. The Stirling branch has urged all local citizens to fly the Red Ensign. Did you know that the Red Ensign may be purchased from the local branch? They range in size from 3 feet by 11 feet to 12 feet by 6 feet. Prices range from about \$5.90 to \$35.00. More information can be obtained from Branch Secretary Bert Hastedo.

We also urge all veterans who are (Continued on page eight)

Tour of Gardens In The Village

(By Mrs. Percy MacMullen)

On Monday afternoon, August 19th, approximately 25 members of the Stirling Horticultural Society enjoyed their annual tour of local gardens situated in the village and along the Trent River in the Valley Community.

The President, Mrs. Floyd Armstrong, and Secretary, Mrs. Ray Rose, were in charge and the group gathered at the home of the President, Frankford Road. Here they viewed the large assortment of gladioli. The motorcade travelled to Church Street and saw the attractive array of roses and begonias and the extensive ground with a pool, the property of Mr. and Mrs. Fred Houchin.

Along the same street were the large pool and gardens of Ernest Munro. The group viewed the flowers and vegetable gardens of Mr. and Mrs. Allan Wannamaker, where a large array of pansies was blooming.

The Horticultural Society provided shrubs for the Stirling Public School and the Cemetery chapel vault. They also donated petunias for the High School and Coronation Park and a visit was paid to these beauty spots.

On Mill Street the flowers and lawns of Mr. and Mrs. Frank Harding,

Mr. and Mrs. Clarke Rodgers and Mr. and Mrs. Harvey Pitcher were admired.

A tour of the new zinnia gardens of Mr. and Mrs. Lawrence Munro on Front Street was made and also the large flower and vegetable garden of Mr. and Mrs. James Chambers, John Street. The last stop in the Village was at the home of Mr. and Mrs. Ivan Caldwell, Frankford Rd., where long rows of gladioli and acres of vegetables were viewed.

The group travelled to the home of Mr. and Mrs. Will Ashby, situated along the Trent River, where the view is picturesque. The asters in all shades were a picture of loveliness. The group returned to the home of the President where she, with her assistants, served ice cream and cake and all enjoyed a social half hour.

Mrs. Percy MacMullen voiced appreciative thanks to Mrs. Armstrong for her hospitality and said the tour of the gardens was well worthwhile.

Mrs. Ray Rose displayed the new stationery with the white trillium emblem which had been purchased recently for her correspondence.

The President read a letter of thanks from the Indian student at Queen's University who enjoyed the hospitality of the Stirling group and journeyed with them to Niagara. Although there are many attractive

gardens throughout the village, time did not permit a more lengthy tour.

Bethel UCW

A very pleasant afternoon was spent at the home of Mrs. Hugh Lyons Thursday, August 15th, when fourteen members and two visitors met for their monthly United Church Women meeting.

The President, Mrs. T. Laycock, opened the meeting with the theme hymn and prayer.

Mrs. Lyons had charge of the worship service and opened with hymn 388. Mrs. G. Heath read the Scripture lesson from Luke 10. Mrs. Lyons gave a very inspiring paper on the theme "Home." Mrs. M. Cooney read two poems entitled, "The Parents' Beatitude" and "The Blue Print to Build a Home." Rev. W. G. Fletcher closed this part of the service with prayer.

The Secretary, Mrs. W. Heath, read the minutes from the last meeting and roll call was responded to by a verse of Scripture and the number of calls made on the sick. In the absence of the Treasurer Mrs. T. Laycock gave a very gratifying report on a recent sale. Plans were completed for the coming banquet.

The programme consisted of a Bible contest given by Mrs. M. Cooney, a flower contest by Mrs. H. Lyons and a precision game by Mrs. G. Heath.

The hostess, Mrs. M. Cooney and Mrs. G. Heath served delicious refreshments and a social time was enjoyed.

The next meeting will be held at the home of Mrs. F. Reid.

Mrs. W. G. Fletcher voiced thanks to the committee and those responsible for a pleasant afternoon.

Spring Brook Farmers' Union

The August meeting of the Spring Brook Local of the Ontario Farmers' Union was held at the home of Mr. and Mrs. Jim Spry. President Murney Bateman was chairman and opened the meeting with the singing of the Queen.

Plans were completed for the bake sale and for the county picnic. Prince Edward County will also be attending the picnic and plans have been made for a tug-of-war and a ball game between the two Counties. There will also be races and contests for the children.

A letter from the Department of Agriculture was read. The milk industry enquiry committee will be holding a meeting in Belleville and all interested parties are invited to attend and present ideas concerning the condition of the milk industry. It was decided that the Farm Union should prepare a brief and present our views to the inquiry committee. The Farm Union feels that one board should handle the selling of milk. At present time there are four boards.

Jeanne Williams attended the National Farm Union Convention. She gave a very good report of the convention.

Murney Bateman expressed thanks to Mr. and Mrs. Spry for the use of their home. The ladies served lunch and a social time was spent.

The Re-Used Plastic Bag -- A Dangerous Economy

Today's housewives are often to be praised for their ingenuity in balancing the household budget, but there is one area where the Ontario Safety League is against economizing. That is, in the re-use of the thin filmy plastic that comes into the house protecting dry-cleaned garments.

The very thin variety of plastic was designed for one purpose alone -- to protect garments and other commodities until they reach the home, after which it should be tied in tight knots and discarded. With its clinging property caused by static electricity, it leads easily to suffocation.

It was never meant to cover a baby's crib mattress or pillow, or be re-used as a diaper bag in baby's carriage. There are heavy-gauge plastic sheets and laundry bags manufactured especially for these purposes, very inexpensive to buy and not worth pinching pennies over.

Yet, every year in Canada a number of babies suffocate because their parents actually place the thin plastic in their cribs or carriages as a substitute for a proper mattress cover. It is to be hoped that parents have learned the simple lesson about airtight plastic film by now, and that this year we will not see another dozen or more babies die through adult carelessness.

Slowly research is unveiling the secrets of forest management.

Sports Celebrity Dinner at Tweed

The Tweed Branch of the Canadian Legion is sponsoring a sports celebrities dinner on September 11th, in aid of the Tweed-Hungerford Community Arena Fund. The arena is now under construction and proceeds from the \$10-a-plate dinner should push the fund near its objective.

There has been a tremendous early response, and over 100 tickets have already been sold. The committee, under chairman Jim Halpenny, hope to reach capacity of 200 tickets sold well before the 11th.

Headlining the event will be guest speaker Red Storey, of Montreal, a former N.H.L. hockey referee and Toronto Argonaut football star. Storey is in great demand as an after-dinner speaker across Canada, and the Tweed Legion Committee is greatly pleased to obtain his services for this date. Other head-table guests signed to date include Bob Feller, all-time great American League pitcher of Cleveland, Dave Mann of Toronto Argonauts, and Ted "Teeder" Kennedy, former captain and star of the Toronto Maple Leaf Hockey Club. Negotiations are still underway with many other well-known personalities of the sports world and names will be announced at a later date.

Tickets are available by contacting Jim Halpenny at Crown Cleaners in Tweed, or Cartha Cassidy at Tweed Radio Electric.

Cancer is the uncontrolled growth of body cells. Its cause is not yet known, but frequently this growth can be completely stopped — if caught in time. The best insurance against cancer is a regular check-up and a check to the Canadian Cancer Society.

Rylstone U.C.W.

Mrs. Bob Spencer entertained the members of Rylstone United Church Women at her home on Tuesday afternoon. There were nine members and several young folks in attendance.

Mrs. Will Rutherford, President, opened the meeting with a poem and conducted the meditation. Mrs. Ross Dickie read the Scripture selection Matthew 9: 12-39. The hymn, "Take My Life and Let It Be" was sung and the roll call answered by a Scripture verse containing the word "eyes."

The Bible study entitled "The Bible and the Word of God," was given by Mrs. Wilfred Spencer. Short Bible passages were read by Mrs. Jack Spencer, Mrs. Lloyd Anderson and Mrs. Cecil Finch. The President offered prayer.

Y.P.U. Softball Games Played

Rawdon Y.P.U. were defeated on Tuesday night by College Hill 10 to 7 in the semi-final series for the Bay of Quinte championship. This marked the first loss of the season for Rawdon and left them in a one game apiece tie with the deciding game to be played tonight (Thursday) at the Frankford Public School grounds at 7:00 p.m.

The winners play Wallbridge-Stone, winners of the western division of the Y.P.U.

Last year Rawdon won the Bay of Quinte Championship and are making an excellent attempt again this year.

Rawdon was undefeated in the reg-

ular schedule of 19 games and their pitcher, Nancy Tompkins, went all the way with a 19-0 record.

Y.P.U. ALL STAR GAME

The annual Y.P.U. All Star Game was held at Frankford on August 11th between the East and West of the group. The Eastern division, which is in this district, came out on top with a 14 to 9 victory. Wayne Waite, of College Hill, and Marjorie Reid, of Plainfield, each hit a home run for the East, while Lyle Couch, of Rawdon, was the leading hitter with two triples a double and a single.

Rawdon, the top team in the league, placed four players on the All Star team — Lyle Couch, Ken McConnell, Donna Dracup and Nancy Tompkins.

Rawdon Take Series 2-1

On August 22nd Rawdon Y.P.U. took College Hill 14-5 at Frankford and won the semi-final series for the Bay of Quinte championship two games to one.

Allan Fletcher sparked Rawdon with his brilliant outfielding and batting. Nancy Tompkins, top pitcher in the league, held College Hill to only six hits. Coach Lyle Couch gave all players a great amount of praise and also said that it would probably be a good series against Wallbridge.

The biggest inning was the third, when Rawdon went on a scoring "spurge" with seven runs. Lyle Couch hit two home runs, including a "grand slam" in the third.

John Oliver and Wayne Waite were leading batters for College Hill. Each was five for six times at bat.

The first game against Wallbridge will be held at Frankford on Monday, September 1st at 8 o'clock.

East Defeat West In Second All-Star Game

The second game between the East and the West of the Y.P.U. took place in Stirling last Saturday, August 24th, with the East again coming up with a victory, this time 16-8.

Jim Johnson, of Foxboro, playing for the East, slugged two home runs while Larry St. Hillare, of Johnstown, hit two home runs for the West. Leading batters for the East were Lyle Couch, Ken McConnell and Jim Johnson.

Nancy Tompkins, who was relieved

in the sixth inning by Marjorie Reid, of Plainfield, was credited with the win.

BEANS, THE INTERNATIONAL FAVORITE

No matter where you travel, you will find beans a favorite vegetable. In France they are spoken of as "haricots", in Italy as "fagioli", in Spain as "judias."

It is interesting to note that European explorers to America discovered the Indians eating beans and took the vegetable back to Europe where it later has proven so popular.

Beans are grown most abundantly in Quebec and Ontario. In recent years the consumption of fresh green beans has increased slightly but the consumption of processed beans is still much higher.

For best eating, choose young, tender beans of uniform size with well-formed seeds. If the seeds make distinct bumps in the pods, the beans may be tough or woody.

In order to keep their fine quality, store beans in a covered container or moisture-proof bag in the refrigerator. Do not wash them before storing and buy only a few days' supply at a time.

Freshly cooked buttered beans are one of our most popular vegetables. However, for extra enjoyment, why not try cooking them in more imaginative ways. The home economists of the Consumer Section, Canada Department of Agriculture suggests these recipes:

Green Beans

Lyonnaise

A tasty combination to serve with your next roast of meat. Yellow beans may also be used.

- 1 1/2 pounds green beans
- 1/2 cup butter
- 1 cup thinly sliced onions
- 1/2 teaspoon salt
- 1/2 teaspoon pepper
- 1/2 teaspoon nutmeg
- 1 tablespoon lemon juice
- 1 tablespoon chopped parsley

Remove ends from beans, then "French" by cutting lengthwise in thin strips. Cook beans in covered saucepan in 1/2 cup boiling water and 1/2 teaspoon salt until just tender. Drain. Melt butter in frying pan, add onions and saute until transparent,

about 5 minutes. Stir in salt, pepper and nutmeg. Add drained beans, mix gently and heat. Sprinkle with lemon juice and parsley, toss lightly and serve. Six servings.

Marinated Bean Salad

A simple, Italian-style salad for use as a side salad or on a cold meat plate.

- 1 1/2 pounds yellow beans, cooked
 - 1/2 to 1 cup French dressing
 - 1/2 teaspoon salt
 - 1/2 to 1/3 teaspoon basil
 - 1/2 to 1 clove garlic, very finely chopped
 - 2 tablespoons chopped parsley
- Cut beans in 1 1/2 to 2 inch lengths and cook until tender. Combine dressing, salt, basil and garlic. Add to hot beans and toss lightly. Marinate in refrigerator until thoroughly chilled, turning beans over once or twice. Just before serving, add parsley and toss lightly. Six servings.

OF MANY THINGS

(By Ambrose Hills)

WATER

Spent one of the most interesting evenings of my life this week, at the home of John David Wojewoda, 83 McAdam Avenue, in Winnipeg. I had read about him in the Tribune series of interesting occupations, written a year or so ago by Steve Melnyk. Wojewoda proved even more off-beat than I had anticipated.

He is one of those mysterious characters called Water Diviners. Instead of a willow fork, he uses a collection of instruments of his own design which tell him where the underground streams run fast.

I wanted to know how a man discovers that he has the ability to find water.

"I hate to tell you," Wojewoda grinned. "I started out as a well driller, with very little money, using rented equipment. I drilled a record number of dry wells. It was getting to the point where my friends were about to name me dry-well John. I'm a proud guy, so I decided to get out

of the business until I learned something about finding water.

"I knew that all over the world, even centuries ago, castles were built on mountain tops or hills, or rock, and in all these unlikely places they must have had water. I wanted to know how they found it.

"I haunted the libraries. The girls at the library desk helped me. I think they dug out every book that even mentioned water, and I drank them up. I found that water divining is an art that has been practised for many centuries, and I learned many strange techniques. Later, I invented some of my own. I think each diviner needs to develop methods suited to his own makeup."

I asked Wojewoda if there was much money in the water-divining business. His young son piped up, "No. . . Dad's so darn crazy about doing it, he doesn't charge enough." His family has a tremendous respect for the father's ability, and they think there is more to it than the instruments he uses. They believe that he has some sort of extra-sensory perception. When an article on that subject appeared in Reader's Digest, they read it and were convinced that their Dad is a living example of it.

Perhaps he is. I know that he did a few remarkable stunts for me, using a couple of his instruments. Either it was a strange coincidence, or he is a bit of a wizard.

What I admired about him was the fact that those first dry wells didn't discourage him. He accepted them as a challenge, and began in a systematic way to study the mysteries of water — and learned a good many other things in the process.

Mumby -- Hennessy Wedding

On July 13th at 2.30 p.m. a lovely double-ring wedding was solemnized in the Madoc Pentecostal Church by the Rev. Calvin Morgan, when Carol Elizabeth Hennessy, daughter of Mr. and Mrs. Corroll Hennessy, of Madoc Township, became the bride of George Clements Mumby, son of Mr. and Mrs. Kenneth Mumby, of Harold, Ont.

White satin bows designated the guest pews and large bouquets of summer flowers adorned the altar.

Mrs. J. Donly, of Bannockburn, rendered the traditional wedding music and accompanied the soloist, Mr. H. Brintnell, of Madoc.

Given in marriage by her father, the bride was lovely in her bridal gown of waltz-length white brocaded satin with skirt of alternating gores of satin and net. The long sleeves were lily-pointed. She wore a shoulder-length veil of tulle held by a tiara of lace with pearls and rhinestones, and carried a semi-cascade of Bettertime red roses and babies' breath.

The matron of honour was Mrs. Eugene Sandford, of Scarborough, and bridesmaids were Mrs. Werner Brauer, of Belleville, and Miss Louise Hennessy, of Madoc, all sisters of the bride. All were dressed identically in street-length gowns of chiffon over taffeta, with bateau necklines in pastel shades of blue, yellow and pink respectively, with white accessories. They wore white flowered headpieces with over-the-face veils, and carried nosegays of 'mums tinted to match their gowns.

Mr. John Ryan, of Harold, attended the bridegroom, while Mr. David Hennessy, brother of the bride, and Mr. Donald Mumby, brother of the bridegroom, ushered the guests.

The reception was held in the church Sunday school rooms which were decorated with pink and white streamers. The bride's table was centred with the three-tier wedding cake, topped with lily-of-the-valley and doves carrying miniature rings.

The bride's mother received the guests, wearing a blue sheath, beige accessories and corsage of white and blue feathered carnations. The bridegroom's mother assisted, wearing a printed silk dress, beige accessories and a corsage of yellow 'mums.

The young couple left on a wedding trip to Algonquin Park and parts of Quebec Province. The bride wore a beige linen sheath with draw-string waist, white accessories and corsage.

Guests attended the wedding from Picton, Belleville, Peterborough, Scarborough, Stirling, Harold, Windsor and Trenton.

The bride and groom are residing at Harold, Ont.

Previous to her marriage, the bride was given a miscellaneous shower in O'Hara's Community Hall, by the ladies of the community and the bride's church.

A reception was held at the home of the groom's parents on July 28th, when relatives congratulated the bride and groom and viewed their gifts.

Some seventy-five friends and neighbours gathered at the home of the groom's parents, Mr. and Mrs. Kenneth Mumby, on July 30th, and presented the young couple with a space-saver.

Mr. and Mrs. Sylvanus Mitts Wed 60 Years

At 90 years Sylvanus Mitts is a man proud of his abilities, attached to the outdoors and an active life.

Sunday was one of the proudest days of that life — spent, as the past 60 years have been with, in quiet attachment to his wife Eliza.

On their farmstead flanking the Ivanhoe Road, three miles east of the Madoc County Road, the Mitts' together marked 60 years of marriage with sprightly reminiscing and slightly partial comments on current life.

"People are about finished these days when they are 65," says Mr. Mitts. "Everything you do today you sit down at it. They hardly ever see 70."

He has more than the longevity granted by 90 summers — winters, springs and autumns not forgotten — to support his theory that physical activity and fresh air are a boon to life-long heartiness. Today, he himself is an animated picture of good health — cheery, interested and interesting and physically active.

He still chops and splits his own wood for fuel in a woodlot on his 367-acre farm.

"And I've got lots in the woods to do this winter, he states.

His outlook is shared by his wife who evokes the spirit of the pioneer as she talks with her husband.

Echoes Sentiments

Eliza Mitts will be 83 next December and echoes her husband's sentiments entirely, pointing to her own early days as a farm-wife on the Concessions of Huntingdon Township.

"I could gather a bag of grain better than anyone on the barn floor," she says. "Take it into Stirling or Madoc to be ground and bring it back again. Today they can't follow that way of life.

Mr. Mitts recalls the winter early in their marriage when he himself went shantying in the northern reaches of Hastings County. Until the following spring his wife handled a farm that counted, among other things, 21 head of cattle and three horses.

In fact, she was called on to manage the farm as other interests called her husband away from home.

Besides logging from shanties, Mr. Mitts also spent much of his earlier life in quarrying. Starting in 1889, he worked in limestone quarries near Crookston. (Now defunct, he says, they were put out of business by stone-cutters' wage demands.) As he became experienced he was sent to various stone-construction projects in charge of work gangs. These included work on Montreal's Victoria Bridge in 1897, the Cartier bridge and similar other jobs between Hamilton and Niagara in 1900-02.

As a logger, he remembers working an hour schedule of six-on, six-off when lumber was sent down river to Belleville, Deseronto and Trenton.

Married in Stirling

"I'd like to see anyone standing on logs for 12 hours a day," he challenges.

Between times there was always the farming.

The couple were married in the Ridge Road home of the bride's parents, Mr. and Mrs. Sam McCaughan. Born in Crookston, Mr. Mitts and his bride later farmed just east of Ivan-

hoe, then moved in 1900 to their present farmstead.

On that property Mr. Mitts still looks forward to much exercise out-of-doors. Being on the move he considers paramount.

"Why once, I couldn't sit for half an hour on a pony. I used to get tired and get down to walk. Even sitting behind a plow was worse than walking.

Sunday the couple were given a family tribute at a picnic at the Col. Roscoe Vanderwater Conservation Area. About 80 attended.

800 Tin Cans Are Produced For Every Home in Canada

Last year, the average North American consumed 150 cans of food products and 60 cans of beverages, and used 10 cans of oil, 12 cans of pet food, and 28 cans of other products.

In all, North Americans today open 80 million cans of food every 24 hours and on a yearly basis the canning industry in Canada and the United States is producing at the rate of 40 billion cans annually, equal to 800 for each and every home in the two countries.

The tin can, James A. Cameron, manager of advertising and sales promotion for Continental Can Company of Canada Limited, told the third annual seminar and packaging show in Vancouver, has become the symbol of convenience, variety, and mass distribution in modern packaging. In Canada alone, he said, the canning industry provides employment for 30,000 people, not counting those engaged in related fields like material manufacturing, transportation and merchandising. In 1960, he said, the industry provided a market for 150,000,000 pounds of sugar, 25,000,000 pounds of salt, and 16,000,000 pounds of flour and meal.

Almost 50 countries produce metal containers today, a fifth of them in the "underdeveloped" group, the speaker said. And pointing to the growth pattern in North America, where over the past half-century the metal container industry has grown 16 times faster than the population it supplies, he forecast a tremendous increase in worldwide use of metal containers in the years ahead.

According to Mr. Cameron, the tin can was born during the Napoleonic era when soldiers died on the battlefields as much from starvation and food poisoning as from enemy bullets. The French Directory offered a 12,000 franc prize to the person who could develop an effective method of food preservation.

The winner was Nicholas Appert, a confectionery chef, brewer, pickle maker and vintner of Paris, who suggested in 1810 that food be packed in bottles like wine. An Englishman, Peter Durand, later substituted a cylindrical canister of tin plate for the glass bottle, and the tin can was born.

Today, more than 135 industries utilize metal containers and whole new fields and hundreds of different products have been developed as a result.

The Good Driver

"Personally, I don't go for these so-called safety steering wheels. I haven't seen a bad crash yet where the deep-dish wheel hasn't buckled hopelessly."

This surprising remark, overheard by the writer of this column, was made by a driver of above-average intelligence. He led the laughter at his own expense when some one pointed out his "blind spot . . . the modern steering wheel is specifically designed to crumple in a crash."

Thousands of drivers in a collision have escaped with bruises because the wheel buckled, cushioning and distributing the force of impact, when an unwieldy or brittle wheel would have inflicted severe chest injuries. A crumpled wheel in a crashed car is evidence of a piece of mechanism that did its job well, says the Ontario Safety League.

Today's automobile has many standard and optional features that materially increase the protection against collision injury. Automobile manufacturers have spent millions of dollars in research into the cause of injuries. And the information obtained has been freely exchanged between companies in the public interest, without regard to the normal considerations of business competition.

The millions spent on safety research have been slow to return to the car manufacturers. The average car owner would rather pay for extra chrome, than for something that might save his life, or that of his passengers.

The crash-within-a-crash is the main cause of bodily injury in a collision. Safety steering wheels, seat belts, padded panels and sun visors, safety door locks, all add greatly to in-car protection.

The Ontario Safety League strongly recommends that such devices should be given priority over whitewall tires, chrome strips and two-tone paint jobs. The League's only reservation is the warning that such safety accessories merely help to prevent injury — they do not prevent collisions. The best all-around safety device is always — a good driver.

WELL SQUELCHED

The story is told that a visitor, shown into Abraham Lincoln's office in the White House, found the President blacking his shoes.

"Why, Mr. President!" exclaimed the visitor. "You black your own shoes?"

"Yes," Lincoln replied. "Whose do you black?"

The art of progress is to preserve order amid change, and to preserve change amid order," thought Alfred North Whitehead, English mathematician and philosopher.

From 1951 to 1961 the cost of operating the CBC rose from \$9.5 million to \$107 million.

COE HILL AND L'AMABLE 4-H CALF CLUBS 100% COMPLETION

Coe Hill and L'Amable 4-H Calf Clubs had 100% completion at their Achievement Day which was held at Coe Hill Fair on Saturday, August 2nd. A fine group of calves, well prepared, were paraded before the judges, Mr. Seymour, of Peterboro, and Mr. Stewart, of Bolton. The calves were judged first and then the members were placed on their Showmanship. For final placing in the club, members work out of a possible 1000 points.

The first three placings in the two clubs are as follows:

Coe Hill 4-H Calf Club — 1st, Wm. O'Brien, Coe Hill, 911 points; 2nd, Daniel O'Brien, Coe Hill, 904, and Wayne Nicholson, The Ridge, 879.

L'Amable 4-H Calf Club — 1st, John Churcher, Bancroft, 875 points; 2nd, Bill White, Detlor, 870; 3rd, Jim Wood, St. Ola, 876.

CHEMICAL NAMES MAY BE CONFUSING

Disease, insect and weed control chemicals may have up to three names — trade (or brand), common and chemical. It is important to know what a name means when buying pesticides. Professor C. B. Kelly, Ontario Agricultural College, Guelph, explains the three as follows:

The trade name is given to the product by the manufacturer and is used in advertising. Different companies may sell the same 'active ingredient' but under different trade names.

When a pesticide is available under a number of different trade names, it is most convenient to have a 'common name.' Although the common name is not used as commonly as the trade name, it is used more often in the Ontario Department of Agriculture spray calendars.

But what about the chemical name? Why not use it? Most of the chemical names are too long and hard to pronounce. Dichlorodiphenyltrichloroethane is an example. Its short form is D.D.T.

Here is an example of the three names of a pesticide. When potato growers spray with Dithane D-14, Parzate Liquid, or King Nabam to control early and late blights, they are actually using the same nabam fungicides under different trade names. Nabam is the common name for fungicides containing the active ingredient disodium ethylene (bisdithiocarbamate), which is the chemical name.

CYNICAL YOUTH

"I think you should read this book," a father told his son. "It's the true story of a man who started out as a footblack and wound up with a million dollars."

"A million dollars!" exclaimed the lad. "He couldn't have used much polish."

Quite a bit of indignation is caused by people having to eat their words.

BARBERRY AND BUCKTHORN HARBOUR GRAIN RUSTS

The annual losses suffered by farmers from leaf and stem rust diseases of cereal grains could be greatly reduced by the eradication of two shrubs — Common Barberry and European Buckthorn. The Solis and Crops Branch, Ontario Department of Agriculture reports that Common Barberry is the worst offender because it carries the stem rust disease which is so injurious to all cereal grains. This shrub should not be confused with the ornamental Japanese Barberry which is harmless. It is easy to distinguish between the two. The offending Common Barberry is a spiny, graceful shrub from 6 to 12 feet high, with arching branches and grey outer bark. The leaves are bright green, smooth, somewhat oval, from 1 to 3 inches long, and have saw-toothed edges. The spines on the branches usually are three-pronged. The flowers are small, yellow and borne in long drooping clusters. The berries are oblong, red and sour. The Japanese Barberry is more spreading and usually no more than 4 to 5 feet tall. The outer bark is reddish-brown, the leaves are green or red with smooth edges, and the spines are usually single. The flowers and fruits are borne singly or in twos, threes or fours and the berries are shorter and more plump than those of Common Barberry.

European Buckthorn carries leaf or crown rust disease of oats. It was once planted as an ornamental shrub and now grows wild in many parts of Ontario. It grows from 6 to 18 feet tall. Many of the small branches end in a blunt thorn. The leaves are oval, dark green, 2 to 3 inches long and remain green in the fall after the leaves of other shrubs have faded. The veins of the leaves turn and point towards the leaf-tip rather than the edges. The black, round, bitter berries are borne in clusters.

Eradication of Barberry and Buckthorn can be an arduous and expensive task. Grants are available through County Councils from the Ontario Department of Agriculture for the purchase of chemical brush killers to be used in the eradication of these two shrubs. Many Counties have applied for these grants and are now conducting county-wide Barberry and Buckthorn control programmes. Large hedges may be removed with a bulldozer or cut and the stumps sprayed, while still fresh, with commercial mixtures of 2, 4-D and 2, 4, 5-T called "Brushkillers" in fuel oil. Spray to soak all stumps and exposed roots. This treatment is effective at any time of the year as long as snow cover does not prevent the spray contacting the stumps. Scattered shrubs may be killed the same way, or treated with dry sodium chlorate mixtures, spread at the base of each shrub.

Caution: Sodium chlorate is poisonous to animals so treated areas should not be grazed until all traces of the chemical have disappeared into the soil.

When using these chemicals, always follow the directions on the container very carefully. For further information, consult Ontario Department of Agriculture Publication No. 75 — "Guide to Chemical Weed Control." It is available, free of charge, from your Agricultural Representative or from the Information Branch, Ontario Department of Agriculture, Parliament Buildings, Toronto 2, Ont.

"There are two things to aim at in life: first to get what you want; and, after that, to enjoy it. Only the wisest of mankind achieve the second," wrote Logan Pearsall Smith, the American essayist.

CONSERVATION NEWS

TIMBER VOLUME ON INCREASE

During the year 1955 District Cutting Licences (cutting permits) were issued and 46 larger more permanent licences were administered by the Department of Lands and Forests. The volume of timber cut was as follows: Sawlogs and assorted poles and piling, 17,038,236 FBM; Pulpwood, 18,963 cords.

This is a modest increase of about 500,000 fbm and 2,000 cords over the previous year. Markets remained fairly good over the year particularly for hardwoods.

The Department planted in this District a total of 1,763,000 trees mostly White and Red Pine and White Spruce which amount is also up by about 300,000 trees over the previous year.

A total of 24 miles of forest access road was built in Herschel and Brougham Townships for timber extraction and general public access. As management practices intensify an improved road network is essential both to do the work and to take full advantage of the increase in growth. With better roads lower value products may be harvested which both improves the remaining forest stand and increases income. In conjunction with road construction about \$31,000.00 was spent improving young stands by means of release from competition, pruning or removal of low grade non-commercial products.

For the coming year emphasis will be placed on the production of management plans for the various units in the District as well as a general land use plan so that the various activities of the Department of Lands and Forests may be well co-ordinated.

My Town is the place where my home is found, where my business is situated and where my vote is cast.

It is where my children are educated, where my life is chiefly lived. It is the home spot for me.

My Town has the right to my civic loyalty. It supports me and I should support it.

My Town wants my citizenship, not my partisanship; my friendliness, not my dissension; my constructive suggestion, but not my destructive criticism; my intelligence not my indifference.

My Town supplies me with protection, trade, friends, education, churches, schools, and the right to free moral citizenship. It has some things that are better than others: the best things I should seek to make better; the worst things I should help to improve.

THE BIBLE TODAY

Arriving in Halifax on September 2nd, the Rev. Dr. W. J. Platt will come to Nova Scotia to assist in the celebrations of 150 years of organized Bible Society service in that province.

The first contributions from British North America for the world wide work of the Society were received in London, England in 1808 from Scottish pioneers who settled in Pictou County in Nova Scotia.

In 1813 a small band of faithful souls gathered to form the beginnings of the Nova Scotia Bible Society. The purpose set forth at the time was to assist the British and Foreign Bible Society in its world-wide task of translating and circulating Scriptures.

There were fourteen branches participating in this new Society, representing as many communities scattered about the province. Today there are 500 active branches in Nova Scotia and Cape Breton.

Dr. Platt will be addressing several meetings. He will lecture at the Pine Hill School of Theology in Halifax. He will also speak in other Provinces of Canada for the Society. He will conclude his visit to Canada in November.

Council Warns of Labour Day Perils

Over the last six years, road traffic in Canada over the Labour Day week-end has taken an average of 54 human lives. The Canadian Highway Safety Council has expressed the fear that the 1963 Labour Day week-end toll will not be less.

The same holiday in 1962 saw 71 people killed in Canadian traffic during the 78 hours between 6 p.m. Fri-

day and midnight Monday. CHSC expected Ontario and Quebec each would account for at least 20 of the Labour Day week-end road fatalities.

"The real tragedy of this slaughter," said W. Arch Bryce, executive director of the Council, "is that it is needless." "Deaths and injuries," he said, could be drastically reduced if each motorist:

1. Refused to face the issue and stayed out of his vehicle.
2. Drove as he would have others drive.
3. Avoided becoming over-tired.
4. Made sure his vehicle was in the best possible condition.
5. Fully realized he was not immune to road accidents.

Not A Chance!

(by Ann Bowman)

They'd only been married ten years, were very happy, had three healthy children, and were planning to move to a larger house so that they could better accommodate the fourth child expected within three months.

They were giving a farewell party in the old house for Meg's friends in the Home and School Association, and for John's in the Northern Ontario industrial firm in which he was the senior salesman.

The night of the party John went to Meg with a sore face. It was inflamed, didn't look good; he couldn't think how it happened. Meg consolingly put some of her dark makeup on it, and the party went off without any comment, except by one of John's close friends, a young intern in their local hospital. "Better look out," he warned, "doesn't look too healthy. You'd better have it checked."

But business was at its height. John didn't have the time. He bathed the spot with baking soda, an idea of his mother's, covered the blemish with more of Meg's dark makeup, and went his merry way.

Then he noticed his customers were beginning to look, and the president of his firm, too, one morning, glanced at him curiously, but didn't say anything. At home that night, he consulted Meg. "Oh, it's probably the spring," she said lightly, "it'll go

away, don't worry about it. Everyone gets a sore spot on his face some time or other."

John found himself shrugging, accepting Meg's lighthearted diagnosis. "Yeah," he agreed, "maybe you're right. There's not a chance of it being any more serious, I'm sure."

Then one morning, the Ontario Division's Mobile Cancer Information Centre arrived at the plant and John, along with the rest of the employees, was requested to attend the film and talk given by a Canadian Cancer Society registered nurse.

John half-heartedly attended, didn't pay much attention to what was being said, or shown, was busy calculating figures in his head, thinking of mortgages on the new house, the bride he and Meg were to attend that night.

Then the nurse was talking about skin cancer. He wasn't worried, but was "stopped in his tracks," as he told his wife at dinner that evening. "Anyway," he'd said, seriously, "after seeing that film, I'm certainly going to get a checkup with our doctor."

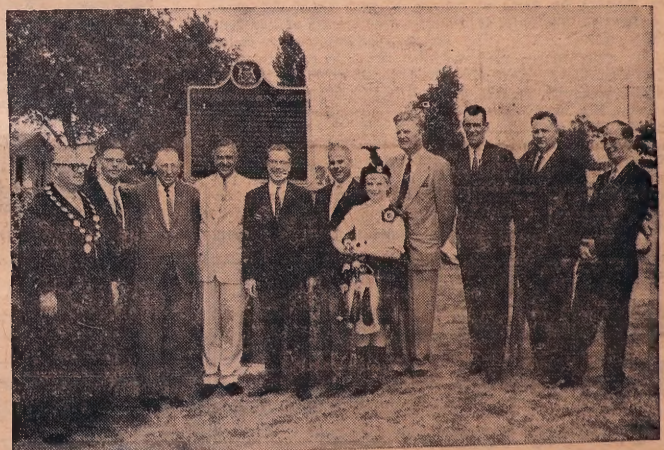

Two months later, John was visiting another industry, doing a little selling of his own. His face was clear and healthy looking. Passing the shipping room, he noticed the same nurse with her film, giving a similar talk to the employees of this industry, some miles from his own.

He made his way to the president's office.

"Just wanted to let you know," he said, "about the worth of this Mobile Cancer Information Centre you've got visiting the plant today. It saved me from skin cancer. I've just finished a series of radiation treatments and I'm all cleared up — for good. I understand that skin cancer is curable 100% if taken in time. I went to my doctor after hearing that nurse talk, and now I'm all set."

John's industry and the one he was visiting are but two of 293 such industries visited by the Mobile Cancer Information Centre in Ontario in 1962. He is but one of 27,043 men and women reached with the films and talks, of which number no less than 229 men and 167 women (total 396) were referred to their family doctors.

Of these referred, many will most certainly have had their lives saved.

Receives Letter From Dairy Commissioner

The following letter was received by Mr. Geo. Carlisle, President of Shamrock Cheese Factory from Mr. J. L. Baker, Dairy Commissioner of Ontario:

Dear Mr. Carlisle:

Many thanks for inviting me to the opening of your remodelled cheese factory on the evening of July 25th.

You and your Directors and patrons and others are to be congratulated in having such an excellent, up-to-date plant. It is difficult to visualize with the expansion, how you ever operated in the space which you had before. Your past excellent record I know will continue and I am sure your confidence in the cheese industry, particularly in your area, will be sustained.

I had hoped to have a talk with

Please convey to her my sincere appreciation for her efforts and her presentation and that it is my wish that she continue to gather such information and any others which she may be able to persuade to start on a similar programme in other parts of your county, certainly has my full blessing. We again remind all branch members of the first business meeting of
